Read Format**

# Community Fisheries and Wildlife Involvement Program

## Fish for the Future

Community Fisheries and Wildlife Involvement Program (CFWIP) is a program for people who want to make a difference in Ontario's fishery. As we move into the next millennium, thousands of volunteers will be helping to ensure we have fish for the future.

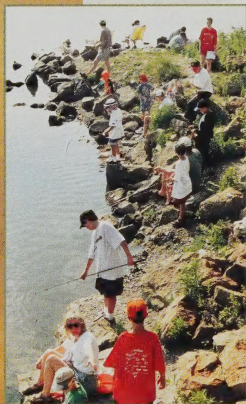

### Humber River Marshes Rehabilitation

CFWIP volunteers conducted restoration of the Humber River wetland.

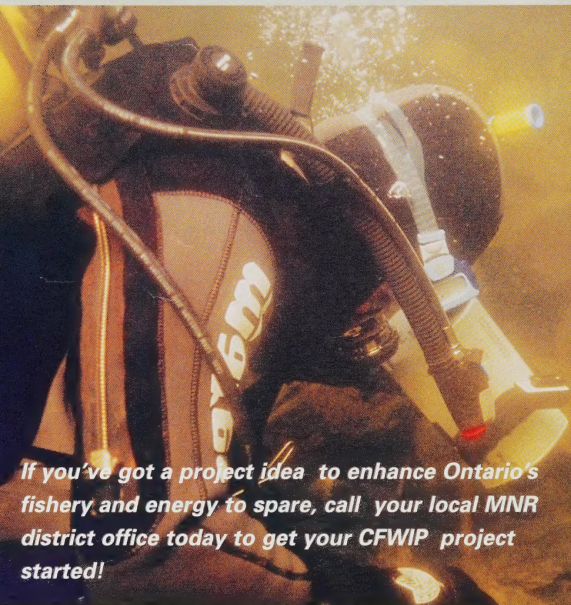

### ◀ Educating a New Generation of Anglers

Over 1,400 kids participated in the "Hooked on Fishing Not on Drugs"® educational conservation program funded through the MNR Niagara CFWIP.

### ◀ Underwater Fisheries Assessment

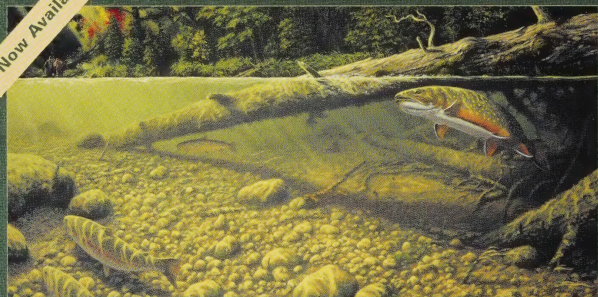

Under CFWIP, 120 volunteers including 60 scuba divers conducted an underwater spawning bed assessment for Lake Trout in Clearwater Bay, Lake of The Woods.

**If you've got a project idea to enhance Ontario's fishery and energy to spare, call your local MNR district office today to get your CFWIP project started!**

Now Available!

## ONTARIO'S LIVING LEGACY

COLD COMFORT  
THE COLDWATER STREAM

## ART QUALITY POSTER

*Illustrated by Cory Trépanier*

This large (20" x 34"), full-colour poster of a natural Ontario coldwater stream is now ready for your home or cottage. It contains typical sportfish and 17 other kinds of animal life associated with the stream.

You can directly support the protection of these streams by purchasing this unique view of Ontario. Call toll-free and pay only **\$12.95** plus tax, postage and handling: **1-800-667-1940**

**Buy one for your favourite angler!**

## Ontario's Angling Legacy

Fishing is a part of our heritage in Ontario. For generations, families and friends have been passing on the traditions of conservation to the anglers of tomorrow. There are few finer moments in life than seeing the exhilaration of a child who has hooked that first panfish, or watching a friend grow to appreciate the serenity of fly-fishing on a quiet trout stream.

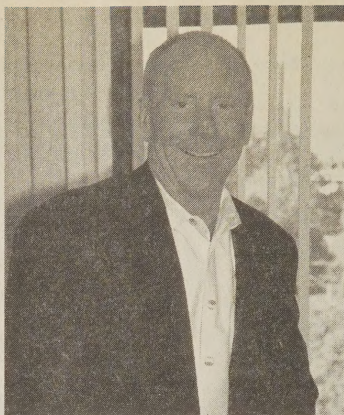

Blessed with four Great Lakes, more than 250,000 inland lakes and countless rivers and streams crisscrossing the landscape, Ontario offers more fishing opportunities than any other province or state in North America.

The Ontario government is a strong supporter of these long-standing traditions.

We are firmly committed to further enhancing the angling opportunities you enjoy in this province. Through advances in fish culture and stocking, fisheries research, and enforcement of conservation laws, the Ministry of Natural Resources is preparing to meet the challenges of the new century.

In 1998, I announced additional financial support of \$10 million over three years in a special Fish and Wildlife Protection and Enhancement Fund. To date, more than 100 fisheries projects have been funded, including fish stocking, spawning bed improvements, enforcement support, fishway construction, walleye population assessment, muskellunge re-introductions and initiatives to introduce youngsters to the joys of fishing.

By purchasing a fishing licence, you too are supporting the future of fishing in Ontario. Every dollar spent on fishing and hunting licences in the province goes directly into a Special Purpose Account where it is reinvested in managing fish and wildlife populations and their habitat.

As a result of suggestions from those who use our annual Recreational Fishing Regulations Summary, we have made a number of improvements to the design of this year's Summary. For example, open season dates and catch limits for each fish species are found in a single table, following each regional map. Lakes offering all year or extended angling opportunities are highlighted and important exceptions such as fish sanctuaries are also listed following each regional map. All new regulations and changes for this year are highlighted in red, and the northeast and northwest regions have been divided into separate sections so that looking up your favourite northern waters will be even easier and faster.

We are proud of the progress we are making in our fisheries management programs. A special thanks goes to the members of the provincial Fish and Wildlife Advisory Board for their thoughtful advice on fisheries matters. As well, I would like to thank the many conservation organizations, the tourism industry and anglers from across the province for their support through partnerships and continued involvement in the consultation process.

By working together, we can continue to safeguard Ontario's rich fishing tradition for generations to come. Please read this Summary and follow the regulations and advice it contains, to ensure that future generations continue to experience the joy of wetting a line.

Be a part of Ontario's angling heritage...and enjoy the terrific angling this province has to offer.

John C. Snobelen  
Minister of Natural Resources

### IMPORTANT NOTICE

This booklet is prepared for convenience only. It summarizes legislation from the *Fish and Wildlife Conservation Act* and regulations under the *Fish and Wildlife Conservation Act*, as well as the *Federal Fisheries Act* and the Ontario Fishery Regulations. Some of the regulations referred to in this summary were in the final stages of federal approval at the time of printing and will not be

enforced until they come into effect. For further information on the status of specific regulations, please contact a local Ministry of Natural Resources office. For more information about obtaining copies of these Acts and Regulations contact the Ministry of Natural Resources, Fish and Wildlife Branch, Fisheries Section, P.O. Box 7000, Peterborough, Ontario K9J 8M5.

# Good News for Ontario Anglers

Thanks to your Outdoors Card and licence dollars, the following have been made possible:

## New Angling Opportunities

Innovative regulations have been implemented to increase angling opportunities while protecting naturally reproducing fish populations.

- Fishing seasons have been extended.
- Across northern Ontario, the stocking of brook trout and splake has created exciting new fisheries.
- In central Ontario, lake trout angling opportunities have been enhanced while sustaining native populations.
- In selected southern Ontario waters, special regulations are allowing species such as muskellunge, rainbow and brown trout and yellow perch to rebuild.

## Progress on the Great Lakes

On **Lake Ontario**, lake trout and lake sturgeon are showing signs of recovery. In 1997, MNR resumed stocking of coho salmon in Lake Ontario and these coho salmon have started to show up in the fishery. In 1999, young, naturally reproduced Atlantic salmon were found in Lake Ontario tributaries for the first time in over a century.

While walleye and yellow perch continue to be fish species of particular interest to anglers on **Lake Erie**, the lake's tremendous smallmouth bass angling is attracting more attention from anglers. There are also signs that muskellunge are extending their range westward from the Niagara River to the Long Point area.

On **Lake Huron**, rehabilitation of lake trout and rainbow trout stocks is a priority. The native lake trout population near Parry Sound continues to make a comeback. Along with angling organizations, cottager associations and other government agencies, MNR is developing a walleye management plan to increase the abundance of this species in eastern Georgian Bay.

**Lake Superior** has seen dramatic recovery of naturally reproducing lake trout in recent years, with a reduced reliance on stocking to support the fishery. MNR biologists and partners are also examining ways to manage the lake's legendary and highly prized "coaster" strain of brook trout.

## Expanded Fish Culture and Stocking

Fish production and stocking from MNR's 10 provincial fish hatcheries have increased to more than eight million fish per year.

- Increased use of aircraft has allowed the stocking of remote waters.
- Production of larger yearling fish for put-grow-take stocking is being tested at several MNR hatcheries. This should ensure better survival in the wild and better angling in the years ahead.

- A pilot project has been initiated to test the feasibility of expanding walleye production at the Blue Jay Creek Fish Culture Station on Manitoulin Island.
- A new "advanced rearing" building is being constructed at the White Lake Fish Culture Station north of Kingston that will increase the number of fish raised from 600,000 to more than one million annually.

## More Partnership Projects

All over Ontario, individuals and organizations are working on fish and wildlife conservation projects, supported by \$1 million in funding from the Community Fisheries and Wildlife Involvement Program (CFWIP). In 1999, thousands of volunteers rehabilitated fish habitat, restored watersheds and marshes, produced fish for stocking local waters and assisted with fisheries assessment programs. In fact, last year more than 550 CFWIP projects were carried out, an increase of 75 projects over the previous year.

## Strong Enforcement of Conservation Laws

MNR has maintained a high level of staffing and operational support for fish and wildlife enforcement. Special canine teams and flying units have been formed and major upgrades have been made to enforcement vehicles and field equipment. Advanced technology such as computer modelling and DNA analysis assists conservation officers in convicting resource abusers. The new Fish and Wildlife Conservation Act is an important tool for fisheries conservation and management.

The Fish and Wildlife Guardian program was launched in the fall of 1999. Guardians are volunteers – trained by MNR – who assist the ministry's compliance efforts by acting as eyes and ears for conservation officers.

## Improved Public Consultation

MNR's fisheries programs emphasize public involvement in decision-making.

- Northwestern Ontario fisheries advisory committee
- Stocking decisions for Lake Ontario
- Central Ontario lake trout strategy
- Rainbow trout reviews on Lakes Huron and Superior
- Lake Nipigon management strategy.

Through the creation of the provincial Fish and Wildlife Advisory Board, the government provided greater opportunity for resource users to directly influence how fisheries budgets are spent. Working closely with stakeholders, MNR develops fisheries management decisions which protect the resource, while offering diverse angling opportunities.

**With your support, further advances in fisheries management will ensure that Ontario continues to provide some of the best angling on the continent.**

## Message from the Chair of the Ontario Fish and Wildlife Advisory Board

Ontario's Fish and Wildlife Advisory Board is proud of its contribution to fish and wildlife programs dedicated to sustainable fishing, hunting, and trapping in the province.

Established in 1995, our 11-member Board provides advice to the Minister of Natural Resources on the most effective use of fish and wildlife revenues and on related program matters. Our

recommendations have had positive results in a number of areas such as more funding for fish and wildlife law enforcement, revitalization of the Community Fisheries and Wildlife Involvement Program, the creation of a marketing initiative to promote fishing and hunting in Ontario, and enhanced fish stocking.

The money you spend on licences goes directly into the Fish and Wildlife Special Purpose Account - an account dedicated to the management of the resource. Your licence fees go back into sustaining those resources, today and in the future.

When the Special Purpose Account was created, a commitment was made that the public, through the Advisory Board, would have a

greater role in deciding how fish and wildlife resources are managed. We are working hard to deliver on that commitment. For example, we look forward to being involved in the development of a Heritage Hunting and Fishing Act, the unveiling of new guidelines and improvements to the Community Fisheries and Wildlife Involvement Programs, the launching of a new provincial fishing web site, and increasing our linkages with local fish and wildlife stakeholders across the province.

We are fortunate to live in a province that offers outdoor recreational opportunities that are second to none in the world. Taking care of our precious fish and wildlife resources takes partnerships and teamwork, volunteers and professional and technical staff, communication and information sharing. The Ontario Fish and Wildlife Advisory Board is pleased to be a partner in fish and wildlife management in Ontario.

We look forward to working with you,

Pat Kennedy  
Chair of the Ontario Fish and Wildlife Advisory Board

The future of fishing is in your hands ...  
take a kid fishing!

*All regulations, limits and licence requirements apply.*

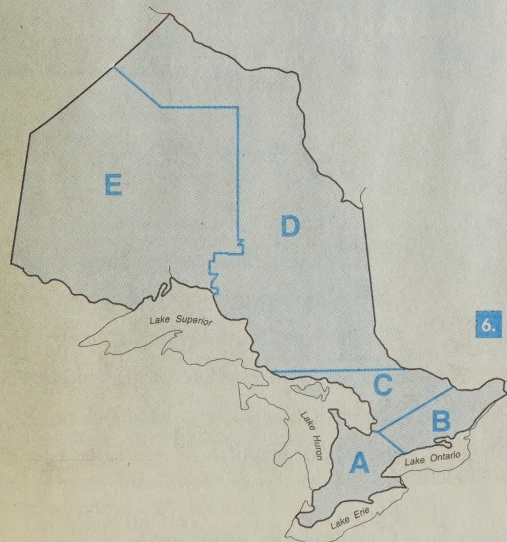

# HOW TO USE THIS SUMMARY

To help you quickly find the fishing information you need, we have divided Ontario into 5 regions, labeled A, B, C, D, and E (below). All information for a region is grouped together.

Each region is broken into fishing divisions. The General Regulations for each division are found in the Division/Species Table following the region map. Once you have read the General Regulations, be sure to check for any Exceptions to the General Regulations which may apply to the waterbody you will be fishing.

Many regions feature additional fishing opportunities that you won't want to miss. These special opportunities are listed as Additional Fishing Opportunities following the region map.

**PLEASE NOTE THAT NEW REGULATIONS AND CHANGES FOR THIS YEAR ARE PRINTED IN RED.**

In order to ensure you are complying with the Ontario Fishery Regulations, please follow these easy step-by-step directions.

1. Ensure that you have the right kind of fishing licence (pages 1 - 4).
2. Understand and comply at all times with the General Fishing Regulations (pages 5 - 12)
3. Refer to the area map where you plan to fish:
 

Southwestern Ontario .....	Map A .....	Page 19
Southeastern Ontario .....	Map B .....	Page 29
Central Ontario .....	Map C .....	Page 38
Northeastern Ontario .....	Map D .....	Page 55
Northwestern Ontario .....	Map E .....	Page 75
4. Determine which division you plan to fish in.
5. Once you have determined the division you plan to fish in and the species you wish to fish for, you **MUST**:
  - Refer to the Division/Species Table for that map area to ensure that you are:
    - fishing during an open season
    - complying with the catch, possession, and size limits

**AND**

  - Check the "Exceptions to the General Regulations" (following the Division/Species Table) for the body of water or general area in which you will be fishing and comply with the exceptions that are shown. If the body of water in which you will be fishing is not listed in the exceptions there are no additional restrictions.
6. If you are not sure whether you can fish at a certain time and place, or if you have any questions about the regulations, contact the local Ministry of Natural Resources office. See listings on page 96.

Also don't forget to review the "Additional Fishing Opportunities" in each map area to make the most of your fishing experience.

# A POACHER IS A THIEF

**Crime Stoppers**  
**Échec au crime**

**O**ntario's wildlife and fisheries are an important part of our natural heritage. Our game and fish laws help sustain these resources for today's users, for our children and future generations.

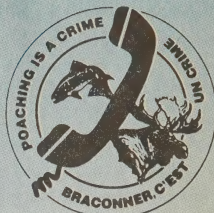

Breaking these laws by poaching is a crime.

Help protect the future of hunting and fishing in Ontario by getting involved.

If you see a poacher, call Crime Stoppers. For **any other fisheries information or enquiries**, please contact your local Ministry of Natural Resources office (p.96).

Crime Stoppers and MNR encourage hunters and anglers to provide the authorities with information about poaching and other crimes. Crime Stoppers gives you complete anonymity and, with the arrest of offenders, a cash reward of up to \$1,000.

By helping Crime Stoppers, you can help reduce the harm caused to our fish, wildlife and forests by poaching and other crimes.

**Anonymous Tips - Cash Rewards**  
**Information - anonymat - récompense**

You now can call your Crime Stoppers new number **CANADA-wide**.  
Your call will be directed to the closest Crime Stoppers office.

**1-800-222-TIPS**

## ONTARIO FAMILY FISHING WEEKEND

**July 7-9, 2000**

- If you have no licence, you must abide by the **Conservation Licence limits**.
- All other angling rules apply.
- Look for Weekend events in your area.
- **Anglers!** Take a friend fishing!  
Sponsor an event!

**Licence-free fishing for Canadian residents**

For more **Weekend information**, call (705) 755-2551 or e-mail: [alan.crook@mnr.gov.on.ca](mailto:alan.crook@mnr.gov.on.ca)

# Fishing Licence Information for Residents of Ontario & Canada

Most Canadian residents need a licence to fish in Ontario. Fishing licences are sold by more than 2,000 licence issuers, with all sales revenue used to manage the resource. If you are fishing in Ontario for the first time, we welcome you and offer this information to guide you through the purchase of your first Outdoors Card and fishing licence tag. If your Outdoors Card has expired, don't wait — order your new card and licence tags today. For information on non-resident licence requirements, see page 4.

## What is an Outdoors Card?

An Outdoors Card is a plastic, wallet-sized, identification card to which your Ontario fishing licence tag is affixed. It acts as a durable carrier for your licence tag for three calendar years.

## Who needs an Outdoors Card to fish in Ontario?

You need an Ontario-issued Outdoors Card and a fishing licence tag to fish in Ontario if:

- you are a resident of Canada;  
**AND**
- you are at least 18 years old but have not reached your 65th birthday.

Certain exemptions apply if you live in Ontario and are disabled or if you belong to an Ontario Aboriginal community (See page 2).

## Is an Outdoors Card a fishing licence?

No. A complete and valid licence to fish consists of an Outdoors Card **plus** a fishing licence tag. If you do not have a current Outdoors Card when you buy your fishing licence, a temporary paper licence enables you to fish until you receive your Outdoors Card in the mail.

## How do I get an Outdoors Card if I have never had one before?

A resident of Canada who has never had an Outdoors Card may apply for an Outdoors Card to go fishing in one of several ways. The way you select depends on how soon you want to go fishing:

**If you do not intend to go fishing right away** you can submit an application and payment to the Outdoors Card Customer Service Centre through the mail. You will receive the card and fishing licence tag you selected in approximately five to six weeks.

You can get an Outdoors Card application by calling 1-800-387-7011 from anywhere in Canada. The application will be mailed to you.

**If you want to fish right away**, the following temporary paper licences and Outdoors Card Application are available from more than 2,000 licence issuers across the province:

- Resident Sport Fishing Licence  
**AND**
- Resident Conservation Fishing Licence  
(both licences include an Outdoors Card Application)

These temporary paper licences are effective immediately upon purchase, and are valid for fishing until the end of the calendar year. The fee for either of these licences includes the cost of the 3-year Outdoors Card. You will automatically be mailed the plastic 3-year Outdoors Card bearing your 1-year fishing licence tag by the end of the calendar year.

## My Outdoors Card has expired. How do I renew it?

The date on which your Outdoors Card expires is shown on the front of your card (centre right). To avoid any lapse in your privileges, it is recommended that you renew your card as soon as you receive your renewal package. This package is automatically mailed to you in the fall of the year in which your card expires.

You may renew your Outdoors Card in any of four ways:

- in Ontario, by using the toll-free automated telephone system and your Visa or MasterCard. **This is the fastest and easiest way to renew!** Be sure to have your Outdoors Card number on hand when you call. Call 1-800-288-1155. Please allow two to three weeks for your card to reach you.
- in Ontario, at any of 60 ServiceOntario Kiosk locations. ServiceOntario Kiosks accept Visa and MasterCard transactions as well as bank debit cards. You will need your Outdoors Card number when you renew. Please allow three weeks for your card to reach you.
- from anywhere in Canada, by mail using the renewal package sent to you in the fall of the year in which your Outdoors Card expires. For the convenience of Outdoors Card holders, a renewal package is sent automatically so you can renew before your current card expires. Payment may be made by Visa, MasterCard, cheque or money order. You will have your card five to six weeks after you submit your renewal. If you have misplaced your package, call 1-800-387-7011 for a replacement.
- in Ontario, by purchasing a Resident Sport Fishing Licence and Outdoors Card Application OR a Resident Conservation Fishing Licence and Outdoors Card Application from a licence issuer. The fee for either of these includes the cost of a 3-year Outdoors Card. You will automatically be mailed the plastic 3-year Outdoors Card by the end of the calendar year.

## I have a current Outdoors Card, but my licence tag has expired. How do I get a tag for this year?

One year fishing licence tags are available from more than 2,000 licence issuers across the province. Licences are often available from tourist outfitters' camps and lodges, summer camps, and sporting goods or bait dealers. In smaller communities, they may be available at general stores or other retail establishments.

## What is the definition of a resident of Ontario?

A resident of Ontario is defined as a person whose primary residence is in Ontario and who has lived in Ontario for a period of at least six months during the previous 12 months prior to applying for a licence.

## What is the definition of a resident of Canada?

A resident of Canada is defined as a person whose primary residence is in Canada and who has lived in Canada for a period of at least six months during the previous 12 months prior to applying for a licence.

### What is the definition of a disabled Ontario resident?

A disabled Ontario resident, under the *Fish and Wildlife Conservation Act* regulations, is someone who is eligible for and is in possession of EITHER:

- a Canadian National Institute for the Blind National Identity Card;  
**OR**
- an Ontario Ministry of Transportation disabled person parking permit (or a photocopy of both the front and back of the permit). A person carrying a photocopy of the permit may be asked to show the original permit at a later date.

In addition, a person who has an intellectual impairment and requires the assistance of another person in order to fish may fish without a licence.

**NOTE:** the disability exemption is available to Ontario residents only.

### Do Aboriginal people need an Outdoors Card?

Except as provided for in some specific cases for conservation reasons, members of Ontario Aboriginal communities, having established aboriginal and treaty rights, do not require an Outdoors Card or Ontario fishing licence tag to fish for:

- personal use on their home reserve;  
**OR**
- within their known treaty or traditional territory.

Personal use is defined as for food, social or ceremonial purposes.

Individuals should be prepared to provide identification showing their community membership.

### What types of fishing licence tags are available to residents of Ontario and Canada?

There are four licence tags offered to Ontario residents and Canadian residents, for the back of the Outdoors Card:

- 3-year Resident Sport Fishing Licence Tag
- 3-year Resident Conservation Fishing Licence Tag
- 1-year Resident Sport Fishing Licence Tag
- 1-year Resident Conservation Fishing Licence Tag

Purchasing a 3-year fishing licence tag is the easiest way to maintain your fishing privileges for the term of your Outdoors Card.

The 3-year fishing licence tag is available:

- when renewing your Outdoors Card using the toll-free renewal line (**1-800-288-1155**) and a Visa/MasterCard;
- when renewing your Outdoors Card from a ServiceOntario Kiosk.
- when renewing your Outdoors Card with the pre-printed renewal application automatically sent to Outdoors Card holders when their card is about to expire;
- when applying for your Outdoors Card with a paper application obtained from the Outdoors Card Centre;

**NOTE:** this three year licence option does not apply to the "Resident Sport Fishing Licence and Outdoors Card Application" or the "Resident Conservation Licence and Outdoors Card Application", as these are one year options only.

The 1-year fishing licence tag is also available to the holder of an Outdoors Card. One-year tags expire on December 31 in the year in which they are purchased. To maintain fishing privileges in the following year, the angler must purchase another 1-year licence tag from a licence issuer.

### What is a Resident Sport Fishing Licence Tag?

For conservation reasons, fishing laws limit the number of fish an angler may catch or possess. The number depends on the type of licence the angler holds, the fish species, where the fish is caught and, in some cases, the size of the fish.

With a Resident Sport Fishing Licence Tag affixed to the Outdoors Card, the angler is eligible to catch and possess fish as specified beside the "S" on the Division/Species Table following each regional map in this summary. The Resident Sport Fishing Licence Tag is for anglers who wish to have full catch and possession fishing privileges.

The Resident Sport Fishing Licence tag is available for three year or for one year periods.

## FAST FACTS ABOUT ONTARIO FISHING LICENCES

- Most Canadian residents between 18 and 65 years of age need an Ontario-issued **Outdoors Card** to fish in Ontario.
- If you have never had an **Outdoors Card**, you can request an application form be mailed to you by phoning the Outdoors Card Centre from anywhere in Canada at **1-800-387-7011**.
- Your Outdoors Card is good for three calendar years. You must have a **fishing licence tag** on the back of a plastic Outdoors Card OR a temporary paper licence in order to have a complete and valid licence for fishing.
- If you are a Canadian resident between 18 and 65 years of age and **you want to fish in Ontario right away**, you can buy a **temporary paper licence** from one of more than 2,000 licence issuers across the province. A temporary paper licence is effective immediately and valid until December 31 of the year in which it was purchased.
- The fee for a temporary paper licence **includes** the cost of a 3-year Outdoors Card.
- If your Outdoors Card will soon expire, or has already expired, the fastest and easiest way to **renew your Outdoors Card** is a three year renewal by credit card with a call to **1-800-288-1155**.
- Ontario Resident Hunters can also fish under the authority of their Outdoors Card (fishing/hunting version).
- If you do not live in Canada, you need a non-resident licence to fish in Ontario (see page 4).
- Get more **information on the Outdoors Card** by calling the Outdoors Card Customer Service Centre at **1-800-387-7011**. This toll-free number works from all regions of Canada, from Monday to Friday, 8:30 a.m. to 5:00 p.m. (Eastern Time).

## What is a Resident Conservation Fishing Licence Tag?

With a Resident Conservation Fishing Licence Tag affixed to the Outdoors Card, the angler observes a catch and possession limit that is lower (in most cases), than that of a Resident Sport Fishing Licence Tag holder.

Catch and possession limits are specified on the Division/Species Table following each regional map in this summary. The limit for the angler with a Conservation licence is indicated with a "C".

The Resident Conservation Fishing Licence Tag is ideal for the angler who wishes to live release a majority of the fish caught, or in the case of certain species, all of the fish caught. The holder of a Resident Conservation Fishing Licence Tag must quickly and carefully live release all fish of the following species:

- muskellunge;
- Atlantic salmon;
- sturgeon; and,
- aurora trout.

The Resident Conservation Fishing Licence Tag is available for three year or for one year periods.

## What is a Resident 1-Day Fishing Licence?

Residents who wish to fish for one day only may take advantage of the Resident 1-Day Fishing Licence. This licence might be the choice of someone going for a day's excursion on a charter boat.

Catch and possession limits for holders of the Resident 1-Day Fishing Licence are specified on the Division/Species Table following each regional map. The limit for the angler with a 1-Day Fishing Licence is indicated with an "S."

## What should I do if my Outdoors Card is lost, stolen or destroyed?

If your Outdoors Card or any part of your licence is lost, stolen or destroyed, call the Outdoors Card Customer Service Centre (1-800-387-7011) to arrange for a replacement. In some circumstances there may be a fee for replacement.

## How can I get more information on the Outdoors Card?

The staff at the Ministry of Natural Resources Outdoors Card Customer Service Centre would be pleased to provide any information you require and answer your questions.

You may reach the Outdoors Card Customer Service Centre without charge from anywhere in Canada by phoning: 1-800-387-7011.

The hours of operation of the Outdoors Card Customer Service Centre are Monday to Friday from 8:30 a.m. to 5:00 p.m. (Eastern Time).

## What else should I know about my Outdoors Card?

Here are other important things to keep in mind:

- you must notify the Ministry of Natural Resources of any address change within **10 days of the change**. You can do this by calling the Outdoors Card Customer Service Centre at **1-800-387-7011** toll-free from anywhere in Canada.

- you must carry your Outdoors Card on your person whenever you are fishing or hunting. If a conservation officer asks to see your Outdoors Card, the law states you must show it.
- your Outdoors Card is not transferable to another person - it provides privileges to you alone.
- you may legally apply for one Outdoors Card only. It is an offence to attempt to obtain more than one card. It is also an offence to provide false information on a card application.

## Residents of Ontario and Canada Fishing Licence Options

Licence Type	Available From	Cost
Outdoors Card plus 3-year Resident Sport Fishing Licence Tag	By mail (new application or renewal), by phone (renewal only) at 1-800-288-1155, or from a ServiceOntario Kiosk (renewal only).	\$66.00
Outdoors Card plus 3-year Resident Conservation Fishing Licence Tag	By mail (new application or renewal), by phone (renewal only) at 1-800-288-1155, or from a ServiceOntario Kiosk (renewal only).	\$42.00
Resident Sport Fishing Licence (1 year) and Outdoors Card Application. (Outdoors Card is included in this fee.)	2,000+ licence issuers throughout the province.	\$26.00
Resident Conservation Fishing Licence (1 year) and Outdoors Card Application. (Outdoors Card is included in this fee.)	2,000+ licence issuers throughout the province.	\$18.00
1-Day Fishing Licence	Most licence issuers throughout the province.	\$10.00
Outdoors Card only (no licence tags). This Outdoors Card becomes a fishing licence only when a 1-year licence tag (\$20 or \$12) is affixed.	By mail (new application or renewal), by phone (renewal only) at 1-800-288-1155 or from a ServiceOntario Kiosk (renewal only).	\$6.00
1-year Resident Sport Fishing Licence Tag (for holders of a valid Outdoors Card)	2,000+ licence issuers throughout the province.	\$20.00
1-year Resident Conservation Fishing Licence Tag (for holders of a valid Outdoors Card)	2,000+ licence issuers throughout the province.	\$12.00
ONTARIO RESIDENTS ONLY: If you wish to both fish and hunt, you may apply for an Outdoors Card (hunting/fish- ing version) which provides for both privileges. Call the Outdoors Card Centre for complete details.	For information on this option call the Outdoors Card Customer Service Centre: 1-800-387-7011  To renew your Outdoors Card (hunting/fishing ver- sion) with a credit card, call: 1-800-288-1155	Various

## Fishing Licence Information for Non-Residents

### I live outside of Canada. Do I need a licence to fish in Ontario?

Anyone who lives outside of Canada is considered a non-resident for the purposes of fishing licence regulations. Most non-residents need a fishing licence to fish in Ontario. Specifically:

- Non-residents 18 years of age and over must purchase a fishing licence.
- Non-residents under 18 years of age may fish without a licence if accompanied by a licenced adult. Any fish caught are part of the catch and possession limit of the adult who holds the licence. As another option, non-residents under 18 years may purchase a licence and any fish caught apply to the catch and possession limits of that licence.

**NOTE:** Non-residents camping on Crown land in Northwestern Ontario (Divs. 20, 21, 22, 22A, 24, 31, 33 and 34) must observe Conservation Licence limits except for in the border waters area (page 80).

For non-resident groups of children (at least five people under the age of 18 years accompanied by a licenced adult) there is a special Licence for Members of an Organized Camp. This licence is available from Ministry of Natural Resources offices.

### Where can I purchase a non-resident's fishing licence?

Non-resident anglers may purchase a fishing licence that is effective immediately at more than 2,000 locations throughout the province. Licences are often available from tourist outfitters' camps and lodges, summer camps, and sporting goods or bait dealers. In smaller communities, they may be available at general stores or other retail establishments.

A range of licences is offered to suit individual needs.

#### Non-Resident Fishing Licence Options

Licence Type	Available From	Cost
Sport Fishing Licence – valid for the calendar year	2000+ licence issuers throughout the province	\$55.00
Conservation Fishing Licence – valid for the calendar year	2000+ licence issuers throughout the province	\$33.00
7-day Sport Fishing Licence	2000+ licence issuers throughout the province	\$35.00
7-day Conservation Fishing Licence	2000+ licence issuers throughout the province	\$21.00
Spousal Fishing Licence (2 people)	2000+ licence issuers throughout the province	\$80.00
1-Day Sport Fishing Licence (Great Lakes & connecting waters)	licence issuers located on the Great Lakes	\$14.00
Non-resident Angling Licence for a Member of an Organized Camp	Ministry of Natural Resources offices	\$4.00 per child
Lake St. Joseph tag	Lake St. Joseph tourist operator from whom accommodation is obtained	No charge

## Fishing Laws

Both federal and provincial laws regulate fishing in Ontario. These laws are designed to protect Ontario's fisheries, allowing recreational anglers and commercial fishers fair use of these resources now, while preserving them for the future. All anglers have the responsibility of obeying these laws. It is against the law to catch, try to catch, or possess any species if it is contrary to fishery regulations to do so. If you catch a fish illegally, return it immediately to the water (see Tips on Live Release of Fish, page 8).

### Fisheries Act

The main federal law with respect to fishing is the *Fisheries Act*, which protects and conserves fish and fish habitat. The *Fisheries Act* is used to regulate such things as fishing seasons, catch and possession limits, size limits, and fish sanctuaries. The Act also makes it illegal to harm fish habitat which is defined as "spawning grounds and nursery, rearing, food supply and migration areas on which fish depend directly or indirectly, in order to carry out their life processes." Ontario conservation officers and deputy conservation officers are Fishery Officers with power to enforce the *Fisheries Act*.

The penalties for fishing offences against the *Fisheries Act* can include up to a maximum of:

General .....	\$500,000, 2 years imprisonment, or both
Habitat Related .....	\$1,000,000, 3 years imprisonment, or both

### Fish and Wildlife Conservation Act

The *Fish and Wildlife Conservation Act* is the main provincial law regulating fishing. This Act is used to create different types of fishing licences and also to regulate such things as ice huts. The *Fish and Wildlife Conservation Act* is enforced by conservation officers and deputy conservation officers.

The penalties for fishing offences against the *Fish and Wildlife Conservation Act* can include:

General .....	\$25,000, 1 year imprisonment, or both
Commercialization or Export/Import .....	\$100,000, 2 years imprisonment, or both

### Conservation Officers

Conservation officers have powers of inspection, arrest, search and seizure under the various statutes they enforce, including the *Fish and Wildlife Conservation Act* and the *Fisheries Act*. When carrying out his or her duties, or investigating an offence under these statutes or the corresponding regulations, a conservation officer may do the following:

- Stop and inspect a vehicle, boat or aircraft;
- Ask questions relevant to the inspection;
- Inspect buildings or other places;
- Search with a warrant;
- Search without a warrant in circumstances requiring immediate action;
- Seize items related to an offence;
- Arrest anyone the conservation officer believes has committed, is committing, or is about to commit an offence of these Acts.

Conservation officers operate random "Fish Check Stations" throughout the year. At these stations, conservation officers collect information on fish caught by anglers and make sure the regulations are obeyed in order to manage and protect Ontario's fisheries resources.

# General Fishing Regulation

## Definition of Angling

Angling means fishing with a line that is held in the hand or is attached to a rod that is held in the hand or closely attended, and to which one or more hooks are attached.

## Open Seasons

Fishing season opening and closing dates vary depending on the species and the area. It is **illegal to attempt to catch fish for which the season is closed, even if you are going to release them**. Closed seasons protect fish at vulnerable times of the year, especially when they are spawning or protecting their young. For example, if adult bass are caught in the spring, the eggs and young bass are left unprotected, and are likely to be eaten by predators. To prevent large losses to these populations, the bass fishing season in most areas begins at the end of June, after the young are large enough to fend for themselves.

Please see the Map Specific Regulations to determine the fishing seasons for waterbodies in Maps A, B, C, D and E.

**Unless stated otherwise, species that are not listed (such as catfish, sucker and rockbass) have a year-round open season.**

## Fish Sanctuaries

No fishing of any kind is permitted in a fish sanctuary. Some bodies of water, or parts of them, are declared fish sanctuaries during certain times of the year. Fish sanctuaries are noted in the "Exceptions to the General Regulations" following the Division/Species Tables for Maps A, B, C, D and E. Note also that fish sanctuary areas are not always marked with signs. If you are at all uncertain, check with the local MNR office before fishing.

## Catch and Possession Limits

Fishery laws limit the number of fish you may catch or possess. The number depends on the type of licence you hold, the species, where they are caught and, in some cases, their size. **Note that for some species there are no limits. In these cases no reference will be made to a limit in this Fishing Summary.**

The **catch limit** is the number of fish you are allowed to catch and keep in one day. The **possession limit** is the number you are allowed to have in your possession on hand, in cold storage, in transit, etc. Possession limits are the same as one day's catch limit except where otherwise specified.

Where a lower limit is referenced in the "Exceptions to the General Regulations", the lower limit also applies to conservation licence holders, if the referenced lower limit is less than the conservation licence limit.

**It is illegal to destroy, or to allow to spoil, fish which have been lawfully caught and which are suitable for food.**

## Size Limits

A variety of size restrictions apply to some species and waterbodies (see Map, A, B, C, D or E). Unless otherwise stated, size limits refer to **total length**, which is a measure from the tip of the mouth with the jaws closed to the tip of the tail, with the tail fin lobes compressed to give the maximum possible length.

For some waterbodies, the regulation may specify a size limit that is a fork length. **Fork length** is a measure from the tip of the mouth with the jaws closed to the central part of the tail fin (See page 6). If you catch a fish in a restricted size range, you must release it immediately. (See *Tips on Live Release of Fish*, page 8).

Provincial regulations are established using the metric system. The conversion to inches has been rounded to one decimal place for the convenience of anglers.

## Gear Restrictions

### Hooks and Lines

An angler may use only one line, except for ice fishing, or unless otherwise stated.

A fishing line must not have more than four hooks. On an artificial lure, a gang containing up to three hooks is considered to be one hook. In all other situations, a double hook counts as two hooks; and a treble hook counts as three hooks.

### Barbless Hooks

In most waters where barbless hooks are required, a line must have no more than one barbless hook attached to it. Any extra hooks must be removed from lures. A barbless hook means a hook that was made without a barb or has had its barb, either completely removed, or compressed so that it is completely in contact with the shaft of the hook.

### Artificial Lures

In some waters, artificial lures are required. An artificial lure means a hook or lure with no organic bait attached.

### Artificial Flies

An artificial fly means a single or double hook dressed with silk, tinsel, wool, fur, feathers or other such material. It does not include a weight or a spinning device. Only artificial flies are allowed as bait in:

- East Goulais River from Laughing Lake in Menard Twp. to the Goulais River (Div. 18);
- Garden River from Ranger Lake to Garden Lake (Div. 18);
- Little Jocko River from Hwy. 63 bridge to Jocko River in Eddy Twp. (Div. 18); and
- Arrow River between the dam on Arrow Lake (Hardwick Twp.) and the Robbins/Hartington Township line (Div. 21).

Please check the "Exceptions to the General Regulations" for additional Gear Restrictions for specific waterbodies.

## Exporting, Transporting or Storing Fish

### Export of Sturgeon

An export permit called a "Convention on International Trade in Endangered Species of Wild Fauna and Flora (CITES) Export Permit" is required to export any sturgeon (in whole or part) from Canada. For more information, contact the Department of Fisheries and Oceans at (905) 336-4871, or the closest MNR office.

### Export of Fish

A recreational angler may, on leaving Ontario, take the designated possession limits for fish captured from a specific waterbody. Those with a Sport Fishing Licence may take the "S" possession limit and those with a Conservation Licence may take the "C" possession limit as noted in the Map Specific Regulations. Please also see the section on Bait, page 7.

### Transfer of Live Fish or Spawn

No live fish or spawn may be transferred from one body of water to another without the consent of the Ministry of Natural Resources.

### Live Holding Boxes

If you use a live holding box or impounding device, it must be clearly marked with your name and address unless it forms part of or is attached to a boat. Any fish in holding boxes are part of your limit. Live holding boxes are not permitted in Div. 34 unless they form part of, or are attached to the boat.

## Preparing Fish for Exporting, Transporting or Storing

When you are exporting, transporting or storing, you must ensure that the fish can be easily identified and counted. Where length limits apply, you must also ensure that the length of the fish can be determined. (See below).

To prepare fish for exporting, transporting or storing, you must:

- leave a large portion of the skin, including scales, on all fish or fillets so they can be identified;
- wrap or freeze fish separately so they can be counted; and
- where length limits or size restrictions are in effect, ensure that the length of the fish can be determined.

## Ice Fishing

The fishing regulations outlined in the General Fishing Regulations, the Division/Species Tables, and the Exceptions to the General Regulations apply to ice fishing. Please note the following additional information:

- up to five lines may be used for ice fishing in Labyrinth Lake, including Waterhen Creek (Div. 19) downstream of Access Road bridge (Territorial District of Timiskaming);
- in most other circumstances, two lines may be used for ice fishing except in some waterbodies in Divs. 7, 15, 16 and 29 (see "Exceptions to the General Regulations"); and
- you may use a tip-up for ice fishing, but must remain within 60 m (197 ft.) of any line with which you are fishing. At all times, you must have a clear unobstructive view of the lines being used.

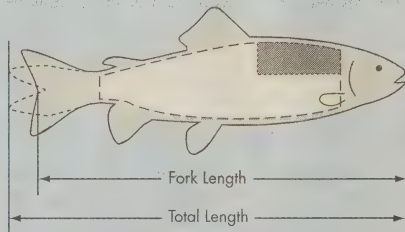

## EXPORTING, TRANSPORTING OR STORING FISH

Many anglers travel long distances or cross international borders to enjoy the adventure of fishing in Ontario. We want to make sure that if you are exporting, transporting or storing fish, that you are doing it according to regulations that help us monitor and enforce laws in place to protect the resource. To prepare fish for exporting, transporting or storing, make sure that you:

- leave a large portion of the skin, including scales, on all fish or fillets so they can be identified;
- wrap or freeze fish separately so they can be counted; and
- where length limits or size restrictions are in effect, ensure that the length of the fish can be determined.

A good tip is to pack your fish in a bag or box by laying them flat and arranging them so that they can be easily identified, counted and measured.

Package fish or fillets separately

Leave a large portion of skin and scales on this fish or fillet.

### Size Limits

Unless otherwise stated, size limits refer to **total length**, which is a measure from the tip of the mouth with the jaws closed to the tip of the tail, with the tail fin lobes compressed to give the maximum possible length.

On some waterbodies, the regulation may specify a size limit that is a fork length. **Fork length** is a measure from the tip of the mouth with the jaws closed to the central part of the tail fin.

## Hut Registration

Ice fishing huts must be registered with the local MNR office if they are on any of the following waters:

- Any part of Divs. 7, 8, 9, 10, 11, 12, 12A, 15 & 29;
- Lakes Couchiching, Simcoe, Puslinch, Nipissing, Temagami, Scugog, Timiskaming, Manitou (Div. 28) and Trout (in the city of North Bay);
- Owen Sound and Colpoys Bay (Bruce and Grey counties);
- Long Point Bay on Lake Erie (Regional Municipality of Haldimand-Norfolk) west of a line from the survey point at Turkey Point Marina to Pottahawk Point;
- The waters of Divs. 17, 18 & 23 lying in the Sault Ste. Marie district.

Contact the local MNR office for further information on ice fishing on these and other lakes.

## Hut Removal Dates

Ice fishing huts must be removed by the following dates:

- Feb. 29 in Div. 8 and Lake Scugog (Div. 6);
- March 15 in:
  - Percy, Seymour, Cramahe, Brighton and Murray Twps. (Div. 6);
  - Div. 7 except that part in Cashel Twp.;
  - Div. 9 except Oso, Olden, Kennebec and Kaladar Twps;
  - Divs. 10 & 11;
  - Div. 12 waters lying south of a line running east/west through the intersection of Hwy. 17 and Hwy. 533 and Div. 12A;
  - Tudor Twp. (Div. 15);
  - Lake Simcoe;
  - the part of Long Point Bay on Lake Erie (Regional Municipality of Haldimand-Norfolk) that lies west of a line drawn from the survey point at Turkey Point Marina to Pottahawk Point;
  - the part of Div. 4 in Simcoe and Dufferin Counties; and
  - water in Severn Sound (Div. 16).
- March 20 (Mon. after 3rd Sun.) in Colpoys Bay and Owen Sound;
- March 25 in Lake Nipissing (Div. 27);
- March 31 in:
  - Lake Temagami (Div. 26);
  - Lake Timiskaming (Div. 18);
  - Lake Manitou (Div. 28);
  - Waters south of, and including the French and Mattawa Rivers (except where earlier dates are listed); Trout Lake (North Bay) (Div. 18); and the waters of Divs. 17, 18 & 23 lying in the Sault Ste. Marie district.

## Bait

### Types of Bait

#### Bait-fish

Generally, only the following fish may be used as bait-fish:

- Mudminnow family
- Sucker family
- Stickleback family
- Lake herring of the whitefish family
- Darter subfamily
- Trout-perch family
- Sculpin family
- Minnow family except carp and goldfish

In the Great Lakes, the St. Clair, Detroit, Niagara, and St. Mary's rivers, Lake George and Munuscong Lake, alewife and yellow perch may also be used as bait.

**NOTE:** The use or possession of live fish for bait is not allowed in certain waters. [See the "Exceptions to the General Regulations" for waterbodies where the use or possession of bait is prohibited, or contact your local MNR office for details, page 96]

### Other Types of Bait

Crayfish, leeches, northern leopard frogs (*Rana pipiens*), green frogs (*Rana clamitans*), and worms may be used as bait.

**NOTE:** Salamanders may not be used as bait in Ontario.

### Capture of Bait by Anglers

#### Bait-fish

Only resident anglers with a valid fishing licence may capture their own bait-fish for personal use, using a bait-fish trap, dip-net or seine, subject to the following restrictions:

- A recreational angler, who catches their own bait-fish for personal use, may have no more than 120 bait-fish in their possession at any time.
- Anglers who catch their own bait-fish for personal use, can no longer possess up to 18 kilograms (40 lbs.) of bait-fish during the winter months. The 120 bait-fish limit now applies year-round.
- To catch bait, anglers may use only one bait-fish trap (no more than 51 cm (20 in.) long and 31 cm (12.2 in.) wide). If you use a bait-fish trap, it must be clearly marked with your name. A trap can be used day or night at any time of the year in all divisions, except Divisions 13 and 23. [See the "Exceptions to the General Regulations" for additional restrictions.]

## LEAD FISHING GEAR

**Lead is a toxic substance, which can be found in some fishing sinkers, jigs and other lures.**

Some waterfowl, such as puddle ducks, geese or swans, swallow lead when they scoop up pebbles from the bottom of a lake or river to help grind their food. Other diving ducks or loons, can swallow lead when they eat fish with sinkers or jigs attached. When ingested, it can cause lead poisoning.

**What can anglers do to help?**

- Purchase non-toxic sinkers and jigs made of clay, tin, bismuth, steel or special putty,
- Never throw old fishing gear into the water or on shore,
- Take old fishing line to tackle shops for recycling,
- Take lead sinkers, jigs and lures to hazardous waste disposal centres.

Please check your trap on a regular basis to avoid wasting fish.

- To catch bait, only one dip-net (no more than 183 cm (6 ft) on each side if square, or 183 cm (6 ft) across if circular), or only one seine (no more than 10 m (32.8 ft) long and 2 m (6.5 ft) wide), may be used. A dip-net or seine can only be used during **daylight hours** (after sunrise and before sunset).
- A dip-net may be used in all Divisions, except Division 13.
- A seine may be used in the following waters only: Lake St. Clair (Div. 1), Division 2, except the Niagara River; Division 5, except the Beaverton River and tributaries in Brock Township from Lake Simcoe to the first dam; Divisions 11 & 17, waters of Lake Ontario in Division 8; the St. Lawrence River, Lake St. Francis, Georgian Bay, Lake Nipissing; and Division 23.
- Any live holding box must be clearly marked with the name and address of the user.
- It is illegal to sell angler caught bait-fish, crayfish or spawn. Only holders of commercial bait licences may sell live bait-fish.

**Non-resident anglers cannot take bait-fish for personal use by any means.**

### Leeches and Frogs

**The personal use of leeches and frogs is under review. Regulations are being proposed that will limit the capture, possession and use of frogs and leeches as bait.**

### Worms

- There are no restrictions on the capture of worms for use as bait.

### Import of Bait

- It is illegal to bring live fish, crayfish or salamanders into Ontario for use as bait.
- It is illegal to bring live leeches into Ontario for use as bait, unless you are the holder of a commercial bait licence.

### Release of Bait

Release of bait-fish, crayfish or other types of live bait can seriously damage fish populations. Anglers should not release live bait (see page 13, *Stop the Invasion*).

### Capture of Bullfrogs and Snapping Turtles

Holders of valid Fishing Licences may:

- Catch and retain bullfrogs for personal use from July 21 – Oct. 15; the possession limit is 10. A person may hunt bullfrogs at night without a firearm and may shine a light for that purpose.

**Bullfrogs may not be taken in the Regional Municipality of Ottawa-Carleton, the Counties of Prescott and Russell, Stormont, Dundas and Glengarry, Leeds and Grenville, Lanark, Frontenac, Lennox and Addington, Prince Edward, Northumberland, Peterborough and Victoria, or in the County of Hastings south of, and including, the townships of Marmora and Lake Tudor and Cashel, Elzevir and Grimsthorpe. Bullfrogs may not be hunted with a firearm other than a long bow or crossbow.**

- Catch and retain snapping turtles during open seasons. For details on harvest areas, season dates and catch and possession limits, see the Ontario Hunting Regulations Summary or contact your local MNR office.

**Snapping turtles may only be captured by hand or by means of a box or funnel trap that does not injure or kill the turtle. The upper shell of a snapping turtle may not be removed from the carcass until immediately before it is prepared for consumption.**

Please note it is illegal to take bullfrogs, northern leopard frogs, green frogs or snapping turtles in provincial parks.

## TIPS ON LIVE RELEASE OF FISH

### Fishing

- use barbless hooks; avoid using live or organic bait,
- reduce the time a fish is played.

### Handling

- reduce handling that removes the slimy protective coating on fish,
- do not squeeze or touch the gills,
- keep the fish in water,
- grasp the fish just behind the gill covers, for panfish and bass, it is best to grasp the fish by the lower lip,
- use long-nose pliers to remove the hook quickly without tearing or injuring the fish,
- if you must release a fish that is hooked deeply, cut the line and leave the hook in,

- take pictures quickly, minimizing the length of time the fish is out of the water.

- hold the fish upright in a swimming position in the water, moving the fish slowly forward so water runs through the gills,
- release the fish when it begins to swim in an upright position.

Using proper release techniques improves fish survival, helps maintain a healthy fishery and identifies you as a conservationist.

*Remember the future of fishing is in your hands!*

## Non-Angling Methods of Capturing Fish

Anyone with a valid Resident Fishing Licence may fish using angling gear, one dip-net, one seine, bow and arrow or spear. Opportunities and restrictions on non-angling activities are outlined in the following tables. Licence holders may also obtain, without charge from MNR offices, the permit required to dip-net for pink salmon, whitefish and herring in specified areas of the province.

Persons with a valid Non-Resident Fishing Licence may fish with a single dip-net or seine net for smelt, and a bow and arrow for carp, sucker and coarse fish under the conditions outlined below.

Before fishing, check the Map Specific Regulations for the area and water body you will be fishing in for any exceptions or additional restrictions.

### It is illegal to:

- catch or kill a fish by impaling or snagging it with a hook through any part of the body other than the mouth. (Any fish hooked in this way must be released immediately. See Tips on Live Release of Fish on page 8);

### It is also illegal to:

- fish with or possess a spring gaff;
- fish with or possess a baited or unbaited snagger for use in fishing;
- fish with or possess a snare for use in fishing;
- fish with a spear gun or possess a spear gun for the purpose of fishing;
- possess a spear for the purpose of fishing on or within 30 m (98.2 ft) of the edge of any waters except when fishing in accordance with the regulations in the following tables;
- use artificial lights for fishing except:
  - to fish for smelt, or to fish for lake whitefish or lake herring with a dip-net;
  - if the light is part of a lure attached to a line used in angling;
- use dynamite or other explosives to take or destroy fish;
- fish within 25 m (81.8 ft.) of a pound net or fish culture cage;
- fish within 22.9 m (75 ft.) downstream from the lower entrance to any fishway or canal, obstacle, or any device designed to assist fish around an obstacle;
- use or possess a landing net with a frame greater than 127 cm (50 in.) in circumference, or a handle longer than 51 cm (20 in.) in the following waters or their tributaries: Pretty River; Batteaux River; Silver Creek in the Counties of Simcoe and Grey, Division 4.

## Non-Angling Methods of Capturing Fish

Unless the regulations specifically state otherwise, all fishing by means other than angling must be done after sunrise and before sunset (during daylight hours).

Species	Method of Capture	Open Season	Waters
Northern Pike	bow and arrow dip net spear	March & April	Waters of Div. 1, Div. 2 excluding the waters of Lake Erie fronting the Regional Municipality of Haldimand-Norfolk, and Div. 3 excluding waters in the County of Essex and the waters in Note 1 (see page 11) and excluding those parts of the Thames, Sydenham & Ausable Rivers in Div. 3.
	bow and arrow dip net spear	January, February, March & April	Waters in the County of Essex (Div. 3).
Smelt	dip net seine	March, April & May (day or night)	All waters except the following: Divisions 4, 6, 13, 22, 24, 30, and 31; those parts of the Thames, Sydenham & Ausable Rivers in Div. 3; the waters in Note 1 (see page 11) (Div. 3); those parts of the Thames and Ausable Rivers in Div. 4; waters in that part of the Regional Municipality of Durham in Div. 4; and all the streams and rivers in the Counties of Bruce and Grey (excluding waters in Div. 4 listed under "Additional Fishing Opportunities (page 22) for Rainbow and Brown trout"); the Trent River and the part of Peterborough County in Division 7; the waters of the Rideau River between Hog's Back Dam and the Ottawa River in the Regional Municipality of Ottawa-Carleton.
Carp, Sucker & Coarse Fish	dip net	March, April & May	All waters except Divisions 6, 13 and waters in Notes 1 & 2 (see page 11) of Divisions 3, 4 and 9
	bow and arrow	May 1 - July 15	Walkhouse Bay of Lake Huron (Robinson Twp.) and waters in Division 17.

continued

## Non-Angling Methods of Capturing Fish

Unless the regulations specifically state otherwise, all fishing by means other than angling must be done after sunrise and before sunset (during daylight hours).

Species	Method of Capture	Open Season	Waters
Carp, Sucker & Coarse Fish cont.	spear	April & May	All waters except the following: the waters of Lake Erie fronting the Regional Municipality of Haldimand-Norfolk (Div. 2), the waters of Lake Huron fronting the Counties of Lambton, Bruce and Huron (Div. 2), Divisions 3, 5, 6 and 13, waters in the Counties of Bruce, Dufferin, Grey & Simcoe (Div. 4), waters in the Municipality of Metropolitan Toronto, in the Regional Municipalities of Peel and York and in that part of the Regional Municipality of Durham in Div. 4., waters in Morrison Twp. (Div. 7), the Rideau River between Hog's Back Dam and the Ottawa River (Div. 9) and the waters of Georgian Bay fronting the Counties of Bruce & Grey (Div. 16)
	spear	March & April	Div. 3 except waters in Note 1 (see page 11) and excluding those parts of the Thames, Sydenham and Ausable Rivers in Div. 3.
Carp & Sucker	bow and arrow	May, June & July	Waters in Divisions 8 and 11; the St. Lawrence River, including Lake St. Francis (Div. 12A); and the Ottawa River downstream from the Chaudière bridge fronting the Regional Municipality of Ottawa-Carleton and the United Counties of Prescott & Russell (Div. 12)
Sucker & Coarse fish	bow and arrow	March & April	Waters of Div. 1, Div. 2 excluding Walkhouse Bay of Lake Huron (Robinson Twp.) and the waters of Lake Erie fronting the Regional Municipality of Haldimand-Norfolk, Div. 3 excluding the waters in Note 1 and, the waters of that part of Div. 4 in the Counties of Brant, Oxford, Perth, and Wellington and the Regional Municipalities of Halton, Hamilton-Wentworth, and Waterloo.
Sucker	bow and arrow	April & May	Division 19
Carp	bow and arrow	May 1 - June 15	Divisions 1 and 2 except the following: the waters of Lake Erie fronting the Regional Municipality of Haldimand-Norfolk; the waters of Lake Ontario (Div. 2) fronting Haldimand and Hamilton Townships and the Town of Newcastle, the City of Oshawa and the Town of Whitby and the waters of Walkhouse Bay of Lake Huron in Robinson Twp. (Div. 2).
			The County of Simcoe and the Holland River in the Regional Municipality of York (Div. 4); Division 5 except the Beaverton River and tributaries (Brock Twp.).
	bow and arrow	May, June and July	Waters of Lake Ontario (Div. 2) fronting Haldimand and Hamilton Townships and the Town of Newcastle, the City of Oshawa and the Town of Whitby.
	bow and arrow	Mar. 1 - June 15	Waters in the Counties of Brant, Oxford, Perth & Wellington and in the Regional Municipalities of Halton, Hamilton-Wentworth & Waterloo (Div. 4); Div. 3 except for waters in Note 1 (see page 11)
	bow and arrow	May 1 - Aug 15	Waters in the County of Huron (Div. 4)

## Non-Angling Methods of Capturing Fish

Species	Method of Capture	Open Season	Waters
Carp cont.	bow and arrow	May 13 (Sat. after 2nd Fri.) to July 31	Division 6
	bow and arrow	June & July	Rideau River between the dam at Burrits Rapids and Lock 17 and the dam in the West Branch Rideau River at Long Island and Lock 16, including Kempsville Creek to Hwy. 43; waters in the Counties of Stormont, Dundas, Glengarry, Prescott and Russell (Div. 9)
Pink Salmon, Whitefish & Herring	dip net	contact local MNR Office for details	All divisions

### Restrictions on Equipment

**DIP-NETS** may be no more than 183cm, (6ft.) on each side if square, or 183cm (6ft.) across if circular.

**SEINES** may be no more than 10m (32.8ft) long and 2m (6.5ft.) wide.

**SPEAR** - Fishing with a spear, or having a spear within 30m (100 ft) of the edge of a body of water, is illegal except in the circumstances noted above.

**BOW AND ARROW** - Bows must be encased from 1/2 hour after sunset to 1/2 hour before sunrise and must not be discharged from a power boat.

**Note 1:** The following waters are exceptions as noted in the table:

- waters in the Township of Delhi or the former Townships of Charlotteville and Windham;

- waters in the Township of Norfolk or the former Townships of Middleton, Houghton, North Walsingham & north of Concession 3 in the former township of South Walsingham (Div. 3);
- Young's Creek in the City of Nanticoke or the former Township of Woodhouse in the Regional Municipality of Haldimand-Norfolk (Div. 3).
- Grand River and tributaries downstream of Onadaga and Tuscarora Twps. (Div. 3).

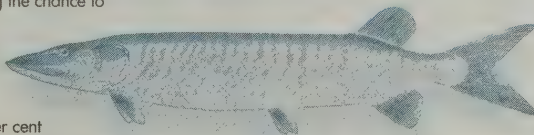

**Note 2:** The following waters are exceptions as noted in the table:

- the part of Division 4 within the Regional Municipality of Durham and all the streams and rivers in the Counties of Bruce and Grey (excluding waters in Division 4 listed under "Additional Fishing Opportunities" on page 22);
- the Rideau River between Hog's Back Dam and the Ottawa River;
- the Thames, Sydenham and Ausable rivers.

## HELP MANAGE OUR MUSKELLUNGE RESOURCE

Ontario is home to some of the most exceptional muskellunge fisheries in the world. With more than 300 lakes and rivers supporting muskellunge populations, Ontario offers an incredible diversity of opportunities and experiences, including the chance to top Ontario's current record of 29.5 kg (65 pounds).

While less than 10 per cent of the muskies caught in the province are kept by anglers each year, we need to know more about these fish in order to keep their populations productive and sustainable. In partnership with the Royal Ontario Museum, Muskies Canada, and the Ontario Federation of Anglers and Hunters, the Ministry of Natural Resources is collecting information from fish that are kept by anglers.

IF YOU PLAN TO FISH FOR MUSKIE, CALL YOUR LOCAL MNR OFFICE FOR AN INFORMATION PACKAGE ON HOW YOU CAN HELP.

The package explains how age, growth and other important biological information can be obtained from

a single bone located near the gill cover, called the "cleithrum". Proper procedure for removing the bone and submitting it for evaluation is also included. By submitting a cleithrum, you will be helping to ensure the sound management of this unique species. This information will be considered in future provincial reviews of muskellunge regulations.

## Safe Boating in Areas of Commercial Fishing

The commercial fishing industry in Ontario, which is primarily focused on the Great Lakes, harvests fish using trawls and a variety of stationary nets. All nets must be identified by means of buoys, stakes, and markers which identify the owner of the net and the location of the beginning or end of the net. Besides these markers, there may be additional buoys (e.g. plastic or steel cans) that indicate intermediate portions of the net or anchor lines. Boaters should be aware that, because the length of some nets may exceed several thousand meters, it may not be possible to see both ends.

To ensure safe boating in areas where commercial fishing activity takes place, please consider the following:

1. Many retail and wholesale freshwater fish outlets are operated by commercial fishers, and information regarding local net marking systems may be obtained by talking with their staff.
2. Many local yacht clubs, sailing clubs, power squadrons, and marinas have information regarding commercial fishing activities in local waters. In some cases, detailed maps of fishing locations and specific markings may be available.
3. Treat commercial fishing gear with the same caution as any other floating device, apparatus or debris.
4. When a net marker is encountered it may be possible to observe which way the net runs under the water. During summer months, when nets are usually set in cooler deeper water, the direction the nets run may not be determined as easily.
5. Unmarked nets should be reported immediately to the closest Ministry of Natural Resources office.
6. Lures and other sharp foreign objects stuck in commercial nets are hazards to commercial fishers.
7. Tampering with commercial fishing gear is dangerous to boaters, and is an offence under the *Fisheries Act*.
8. If your gear accidentally becomes entangled in a commercial net, and you cannot disentangle your equipment from the net, contact the commercial operator immediately.
9. Entanglement of cannonballs may present a serious and dangerous situation to boaters. Cannonball cables, if not released from the net immediately, can act like an anchor. If this occurs, the downrigger line should be cut immediately with wire cutters.
10. Where the trawl industry operates, boaters should recognize that maneuvering a trawler can be very difficult. Be aware that standard boating rules and regulations apply when encountering any large commercial fishing vessel.

If you have questions pertaining to Ontario's commercial fish industry, please call any local office of the Ministry of Natural Resources or contact the Ontario Commercial Fisheries' Association at (519) 676-0488.

## Laws to Help Stop the Spread of Exotics

Harmful exotic species are often spread unknowingly. As an angler or boater, you should always take precautions to help stop the spread of exotic species. You should also be aware that there are laws in place to help ensure that unauthorized introductions do not take place.

### A licence is required to:

- Stock fish into Ontario waters.
- Ship or transport live fish other than bait-fish taken from a waterbody.
- Transfer and deposit fish taken from one waterbody into another.
- Import leeches into Ontario for use as bait. Only the holder of a commercial bait licence may bring live leeches into Ontario for use as bait.

### It is illegal to:

- Release bait-fish, including crayfish or any other live fish, except into the body of water from which they were taken. If you are not sure what lake or river they came from, do not release them.
- Release aquarium fish into Ontario waters.
- Import into Ontario for use as bait any live fish, live crayfish, or live salamanders.
- Possess a ruffe, except when transporting a dead specimen to a MNR office.
- Use live smelt as bait or possess live or dead smelt while fishing in Division 22, 22A, 30, 31 and 32 in Northwestern Ontario.

### Remember:

- Take care when cleaning smelt. Do not rinse equipment or dump entrails into a lake or river. Fertilized smelt eggs can easily start an invasion of a new watershed.
- Never release or flush aquarium pets, plants or water into natural waters, drainage ditches or sewers.

By spreading the word and taking action against exotic species you will help conserve Ontario's healthy fisheries!

## CROWN LAND AND CAMPING

In Ontario, travel for recreational purposes on Crown lands and waters is generally free and unrestricted. Generally, camping is allowed free on Crown lands for up to 21 days per year except where posted as no camping.

However, some Crown lands have restricted travel zones for forest fire prevention, officially closed forest access roads and areas posted with signs to prohibit all or certain kinds of travel. **Non-residents**, except those using the services of a commercial outfitter, require a permit to camp on Crown lands north of the French and Mattawa Rivers. Contact your local MNR office or licence issuer for permits.

# Stop

Ontario's waters are threatened by exotic species that can be spread unknowingly by anglers and boaters.

# the Invasion!

Eurasian Watermilfoil

Smelt

Zebra Mussel

To report sightings and get the latest information call the  
**Invading Species Hotline 1-800-563-7711**

## Anglers and Boaters - You Can Help

**Inspect** your boat, motor, trailer, and boating equipment (anchor, centreboards, rollers, axles) and remove any zebra mussels and other plants and animals that are visible before leaving any waterbody.

**Drain** water from the motor, livewell, bilge and transom wells while on land before leaving the waterbody.

**Wash/dry** your boat, tackle, downriggers, trailer, and other boating equipment to kill harmful species that were not visible at the boat launch. Some aquatic nuisance species can survive more than 2 weeks out of water so it is important to:

- **rinse** your boat and equipment that normally gets wet with hot tap water (greater than 40°C); or
- **spray** your boat and trailer with high pressure water (250 psi); or
- **dry** your boat and equipment for at least 5 days before transporting to another waterbody.

**Empty** your bait bucket on land before leaving any waterbody. Never release live bait into a waterbody, or release aquatic animals from one waterbody into another.

**Learn** how to identify zebra mussels and other exotic species. If you suspect a new infestation, report it to the Invading Species Hotline (1-800-563-7711). This hotline is a partnership between the Ontario Ministry of Natural Resources and the Ontario Federation of Anglers and Hunters.

## Fish Identification

Here are the types of fish that anglers are likely to catch in Ontario's lakes and streams. Information is provided on the following:

**L:** length.

**D:** distribution/habitat.

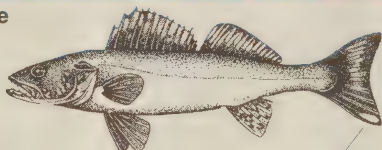

**S:** similar fish.

**K:** key identifying characteristics that separate them from those similar fish.

The Ontario record for many of these species can be found on page 18.

The fish illustrations were drawn by Rebecca Brebner, with the exception of the muskellunge and the sturgeon, which were drawn by Andreas Radman of the Ontario Ministry of Environment, and the Great Lakes phase of the rainbow and brown trout which were drawn by Virgil Beck and provided by the Wisconsin Department of Natural Resources. These illustrations were redrawn based on original fish illustrations from two publications: Bulletin 184, Fisheries Research Board of Canada - "Freshwater Fishes of Canada" by Scott and Crossman, and "Fish of Ontario" (poster) distributed by the Ministry of Natural Resources.

### Walleye

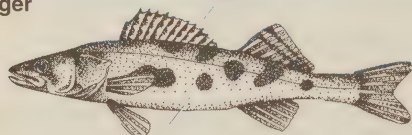

**L:** 25 - 85 cm (10 - 33 in.).

**D:** lakes and rivers throughout most of Ontario.

**S:** sauger, yellow perch.

**K:** white tip on lower tail fin; no distinct blotches or bands on adults.

### Sauger

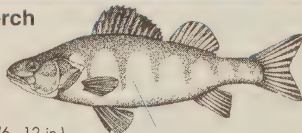

**L:** 25 - 41 cm (10 - 16 in.).

**D:** large, shallow, turbid waters throughout Ontario.

**S:** walleye, yellow perch.

**K:** lacks white tip on lower tail fin; distinct blotches or bands on adults; spots on dorsal fin.

### Yellow Perch

**L:** 15 - 30 cm (6 - 12 in.).

**D:** clear waters with some vegetation throughout Ontario; often school.

**S:** walleye, sauger, white perch.

**K:** 6 to 8 dark, vertical bands on sides, alternating with light yellow to yellow-green.

### Northern Pike

**L:** 45 - 100 cm (18 - 39 in.).

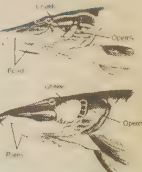

**D:** quiet, vegetated waters throughout Ontario.

**S:** muskellunge.

**K:** light yellowish spots on dark green background; tips of tail fin more rounded than muskellunge; see also head close-up below.

### Northern Pike

Cheek fully scaled, upperhalf of opercle only scaled, 10 pores on undersides of lower jaw.

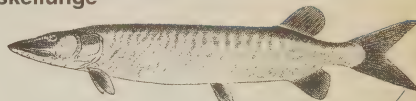

### Muskellunge

Cheek and opercle both scaled only on upper half, 12-18 pores on undersides of lower jaw.

### Muskellunge

**L:** 71 - 137 cm (28 - 54 in.).

**D:** discontinuous in southern and near northeastern Ontario, and the Lake of the Woods/Rainy River area.

**S:** northern pike.

**K:** dark vertical bands on light background, at times spotted or clear; tips of tail fin more pointed than northern pike; see also head close-up above.

### Smallmouth Bass

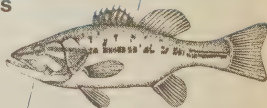

**L:** 25 - 50 cm (10 - 20 in.).

**D:** clear, rocky waters with little vegetation from southern Ontario to Timiskaming and northwestern Ontario.

**S:** largemouth bass.

**K:** upper jaw does not extend beyond eye; shallow notch between dorsal fins; body often with dark, broken bars.

### Largemouth Bass

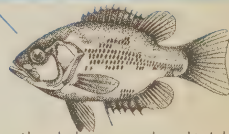

**L:** 25 - 55 cm (10 - 22 in.).

**D:** warm, weedy, slow or still waters primarily in southern Ontario.

**S:** smallmouth bass, rock bass.

**K:** upper jaw extends beyond eye; deep notch between dorsal fins; body often with a broken horizontal stripe.

### Rock Bass

**L:** 15 - 20 cm (6 - 8 in.).

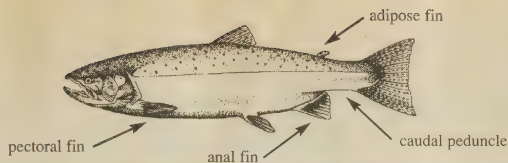

**D:** warm, slow or still shallows with rocky bottoms, northward to Lake Abitibi.

**S:** pumpkinseed, bluegill.

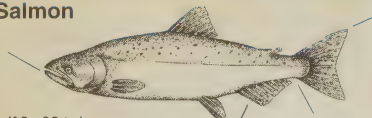

**K:** large, red eye; six anal fin spines; regular rows of spots on the side in adults.

## Salmon and Trout Identification

The following features are useful in identifying salmon and trout:

### Chinook Salmon

- L:** 30"-100 cm (12 - 39 in.).  
**D:** found in all Great Lakes and some tributaries.  
**S:** coho, Atlantic and pink salmon, rainbow trout (steelhead), brown trout.  
**K:** black mouth and black gums; tail entirely spotted; leading ray on anal fin extends 1/3 the length of the fin; short, narrow caudal peduncle.

### Coho Salmon

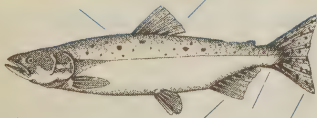

- L:** 30 - 75 cm (12 - 30 in.).  
**D:** found in all Great Lakes and some tributaries.  
**S:** chinook, Atlantic and pink salmon, rainbow trout (steelhead), brown trout.  
**K:** dark mouth and light grey gums; tail spotted on upper lobe only; leading ray on anal fin extends 1/2 - 2/3 the length of the fin; short, narrow caudal peduncle.

### Atlantic Salmon

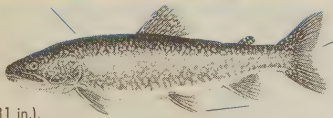

- L:** 25 - 70 cm (10 - 28 in.).  
**D:** reintroduced to Lake Ontario; occasionally in upper Great Lakes and some tributaries, and Trout Lake near North Bay.  
**S:** chinook, coho and pink salmon, rainbow trout (steelhead), brown trout.  
**K:** white mouth and gums; few large, black spots on gill cover; no spots on tail; leading ray on anal fin extends the length of the fin; long, narrow caudal peduncle; dark-coloured pectoral fins.

### Pink Salmon

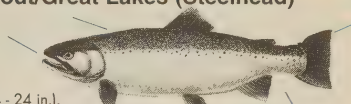

- L:** to 46 cm (18 in.).  
**D:** found in all Great Lakes.  
**S:** chinook, coho and Atlantic salmon, rainbow trout (steelhead), lake trout.  
**K:** large black spots on back and tail fin, but not on dorsal fin; forked tail; leading ray on anal fin extends 1/3 - 1/2 the length of the fin; narrow caudal peduncle.

### Lake Trout

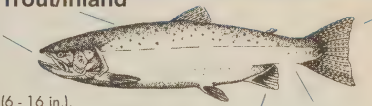

- L:** 30 - 80 cm (12 - 31 in.).  
**D:** cold waters of deep lakes throughout much of Ontario.  
**S:** brook trout.  
**K:** light wormlike markings and spots on dark background, none red; deeply forked tail; white leading edge on lower fins, but no black line.

### Rainbow Trout/Great Lakes (Steelhead)

- L:** 35 - 60 cm (14 - 24 in.).  
**D:** found in all Great Lakes and many tributaries.  
**S:** chinook, coho, pink and Atlantic salmon; brown trout.  
**K:** white mouth and gums; body silver with dark spots; spots all over tail in radiating rows; leading anal fin ray extends the length of the fin; long, stocky caudal peduncle.

### Rainbow Trout/Inland

- L:** 15 - 40 cm (6 - 16 in.).  
**D:** south of a line from Kenora to Kesagami Lake.  
**S:** brook and brown trout; juvenile Atlantic salmon.  
**K:** many small black spots on body; spots over tail in radiating rows; pink lateral stripe; leading anal fin ray extends the length of the fin; long, stocky caudal peduncle.

### Brown Trout/Great Lakes

- L:** 35 - 60 cm (14 - 24 in.).  
**D:** found in all Great Lakes and some tributaries.  
**S:** chinook, coho, pink and Atlantic salmon; rainbow trout.  
**K:** white mouth and gums; silvery with dark spots on body; only occasional vague spots on tail; only salmon or trout with orange on adipose fin; leading anal fin ray extends the length of the fin; short, stocky caudal peduncle; light-coloured pectoral fins.

### Brown Trout/Inland

- L:** 20 - 40 cm (8 - 16 in.).  
**D:** occasional south of the French River, mostly in Great Lakes tributaries.  
**S:** rainbow and brook trout; juvenile Atlantic salmon.  
**K:** large black, blue or red spots on body, often surrounded by lighter ring; tail with few spots; only salmon or trout with orange on adipose fin; leading anal fin ray extends the length of the fin; short, stocky caudal peduncle.

### Brook Trout

- L:** 15 - 40 cm (6 - 16 in.).  
**D:** cold, clear streams, small lakes, Lake Superior.  
**S:** lake trout.  
**K:** light wormlike markings and spots on dark background, some red and blue; square tail; white leading edge on lower fins, set off by black line.

## Lake Whitefish

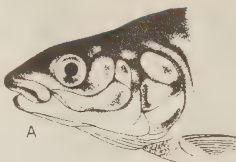

- L:** 30 - 65 cm (12 - 26 in.).  
**D:** Great Lakes and deep, cold, inland lakes across Ontario.  
**S:** cisco, round whitefish.  
**K:** mouth overhung by snout (see below); body oval in cross-section.

Profiles of whitefish and herring showing differences due to position of snout or upper jaw.

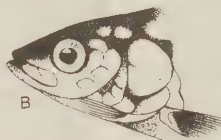

## Lake Whitefish

- A. The mouth is overhung by the snout or upper jaw; rounded profile.

## Cisco (Lake Herring)

- B. The mouth is not overhung by the snout; pointed profile.

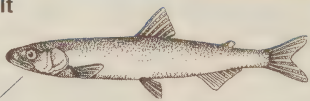

## Cisco

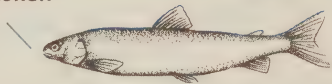

- L:** 20 - 30 cm (8 - 12 in.).  
**D:** cold waters from Great Lakes to Hudson Bay  
**S:** lake and round whitefish, rainbow smelt  
**K:** mouth not overhung by snout (see above); mouth ends before middle of eye.

## Rainbow Smelt

- L:** 15 - 25 cm (6 - 10 in.).  
**D:** throughout Great Lakes area, including some inland lakes.  
**S:** cisco.  
**K:** mouth extends beyond centre of the eye; tongue with prominent teeth.

## Round Whitefish

- L:** 20 - 40 cm (8 - 16 in.).  
**D:** Great Lakes; deep inland lakes throughout Ontario.  
**S:** lake whitefish, cisco.  
**K:** mouth overhung by snout; body round in cross-section.

## Channel Catfish

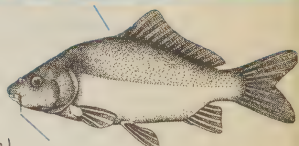

- L:** 36 - 53 cm (14 - 21 in.).  
**D:** Great Lakes and larger lakes and rivers south of the French River and from Lake Nipigon west.  
**S:** brown bullhead.  
**K:** deeply forked tail.

## Brown Bullhead

- L:** 20 - 36 cm (8 - 14 in.).  
**D:** warmer, slow waters throughout southern Ontario and generally south of highways 11 & 17 in the north.  
**S:** channel catfish.  
**K:** square tail.

## Carp

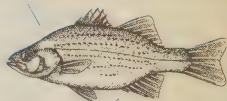

- L:** 30 - 75 cm (12 - 30 in.).  
**D:** shallow, warm waters, primarily in southern Ontario.  
**S:** freshwater drum.  
**K:** "whiskers" beside mouth; one dorsal spine.

## Freshwater Drum

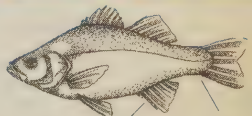

- L:** 45 - 50 cm (18 - 20 in.).  
**D:** large, shallow waterbodies with mud or sandy bottoms, mostly in lower Great Lakes.  
**S:** carp.  
**K:** no "whiskers"; 8-9 dorsal spines.

## White Bass

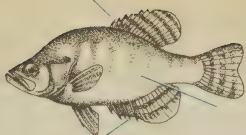

- L:** 20 - 30 cm (8 - 12 in.).  
**D:** clear water near rock reefs and sand bars in lower Great Lakes area.  
**S:** white perch.  
**K:** dark spots in horizontal lines, often faint and irregular; second anal spine distinctly shorter than third.

## White Perch

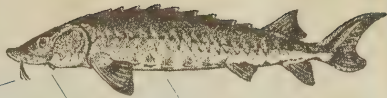

- L:** 15 - 25 cm (6 - 10 in.).  
**D:** Lakes Ontario and Erie, lower Niagara River and Welland Canal.  
**S:** white bass, yellow perch.  
**K:** colour variable, but spots or stripes not obvious; second and third anal spine roughly equal in length.

## White Crappie

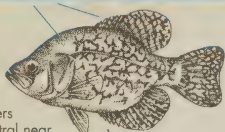

- L:** 20 - 30 cm (8 - 12 in.).  
**D:** mouths of tributary streams or weedy, sheltered bays in lower Great Lakes area.  
**S:** black crappie.  
**K:** six dorsal fin spines; 6 or 7 anal fin spines; sides with faint bars.

## Sturgeon

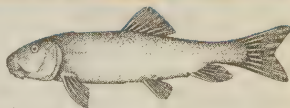

- L:** 90 - 145 cm (3 - 5 ft.).  
**D:** larger rivers and lakes, usually less than 30 feet deep.  
**S:** none.  
**K:** underslung mouth; whiskers; bony plates on sides.

## Black Crappie

- L:** 18 - 25 cm (7 - 10 in.).  
**D:** clear, weedy lakes and slow rivers primarily Great Lakes, south central near northeast and parts of northwestern Ontario.  
**S:** white crappie.  
**K:** 7-8 dorsal fin spines; 6 or 7 anal fin spines; irregular mosaic of distinct black blotches.

## White Sucker

- L:** 30 - 50 cm (12 - 20 in.).  
**D:** warm, shallow lakes and tributary rivers across Ontario.  
**S:** other suckers (e.g. redhorse).  
**K:** torpedo-shaped; round in cross-section; scales smaller than redhorse sucker.

## Pumpkinseed

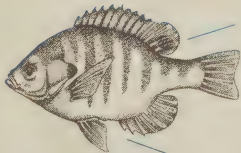

- L:** 18 - 23 cm (7 - 9 in.).  
**D:** clear, shallow, weedy waters north to Temagami.  
**S:** rock bass, bluegill.  
**K:** 3 anal fin spines; wavy, blue-green stripes on sides of head; ear flap with orange or red spot.

## Redhorse Sucker

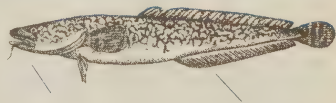

- L:** 30 - 45 cm (12 - 18 in.).  
**D:** shallow, clear lakes or rivers across Ontario.  
**S:** white sucker.  
**K:** back arched before dorsal fin; oval in cross-section; scales larger than white sucker.

## Bluegill

- L:** 15 - 30 cm (6 - 12 in.).  
**D:** warm, vegetated, still waters throughout southern Ontario.  
**S:** rock bass, pumpkinseed.  
**K:** 3 anal fin spines; black spot at rear end of dorsal fin; ear flap black.

## Burbot (Ling)

- L:** to 38 cm (15 in.).  
**D:** cool waters of lakes and rivers throughout Ontario.  
**S:** bowfin.  
**K:** single "whisker" on tip of chin; long, thin anal fin.

## Goldeye

- L:** 25 - 38 cm (10 - 15 in.).  
**D:** parts of northeastern and northwestern Ontario, often in swift, silty waters.  
**S:** mooneye.  
**K:** iris of eye large and bright golden, forward scales with golden luster.

## Bowfin

- L:** 46 - 61 cm (18 - 24 in.).  
**D:** swampy, vegetated bays of warm lakes and rivers, primarily in southern Ontario.  
**S:** burbot.  
**K:** no "whiskers"; anal fin short but deep.

## Mooneye

- L:** 25 - 30 cm (10 - 12 in.).  
**D:** clear rivers and shallow lake waters, southern as well as parts of northeastern and northwestern Ontario.  
**S:** goldeye.  
**K:** iris of eye large and golden, but not as bright as goldeye; scales silvery.

## American Eel

- L:** 61 - 91 cm (2 - 3 ft.).  
**D:** St. Lawrence and Ottawa River drainages, and Lake Ontario.  
**S:** lamprey.  
**K:** snake-like; continuous fin around rear half of fish; pectoral fins but no pelvic fins.

# Ontario Record Fish Registry

The Ontario Federation of Anglers and Hunters operates the Ontario Record Fish Registry. This registry recognizes the largest fish caught in Ontario for 47 species. For more information, please contact:

The Ontario Federation of Anglers and Hunters

P.O. Box 2800

Peterborough ON K9J 8L5

Telephone: (705) 748-6324

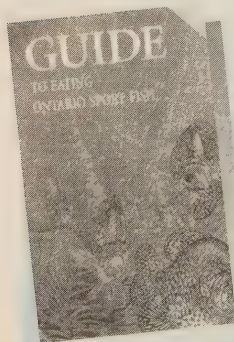

Fax: (705) 748-9577

Internet: <http://www.ofah.org> e-mail: [ofah@ofah.org](mailto:ofah@ofah.org)

## The Registry includes the following records, as of 1999

	lbs.*	kgs.		lbs.*	kgs.
Atlantic Salmon	24.30	11.0	Lake Whitefish	14.77	6.7
Aurora Trout	5.75	2.6	Largemouth Bass	10.43	4.7
Black Crappie	3.78	1.7	Muskellunge	65.00	29.5
Brook Trout	14.50	6.6	Northern Pike	42.12	19.1
Brown Trout	34.38	15.6	Rainbow Trout	29.12	13.2
Chinook Salmon	45.38	20.6	Smallmouth Bass	9.84	4.5
Coho Salmon	26.64	12.1	Lake Sturgeon	168.00	76.2
Lake Herring (Cisco)	4.33	2.0	Walleye	22.25	10.1
Lake Trout	63.12	28.6	Yellow Perch	2.25	1.0

\* Pounds are the official unit of measurement.

## CONTAMINANTS IN SPORT FISH

Fish can accumulate contaminants to levels that may pose a health hazard to the public. To protect the health of those who consume sport fish, the Ontario Government tests fish from lakes and rivers throughout the province for a wide variety of contaminants such as mercury, PCBs, DDT, mirex, toxaphene and dioxins. The results of this testing program are made available through the **Guide to Eating Ontario Sport Fish**. The Guide provides species and size-specific advice on fish consumption from more than 1,600 locations throughout Ontario.

The **1999-2000 Guide to Eating Ontario Sport Fish** is available free of charge from offices of the Ministries of Natural Resources and Environment. Copies can also be obtained by contacting the Sport Fish Contaminant Monitoring Program at the address and phone numbers given below. As well, if you have any specific questions on contaminants in Ontario sport fish or are not sure if the fish you have caught are suitable for consumption, you may contact staff at the same numbers:

\*except Dec. 24

Note: Species NOT listed above have a year round open season and no catch and possession limits unless specified in the Exceptions to the General Regulations.

## Size Limits:

Unless otherwise stated, the length referred to is total length. (See page 5)

Size restrictions listed above apply to both Sport Fishing and Conservation licences.

## Daily Catch and Possession Limits:

Daily catch and possession limits will depend on the type of fishing licence you hold, the species and where they are caught and in some cases the size of fish.

The catch limit is the number of fish you are allowed to catch and keep in one day. The possession limit is the number you are allowed to have in your possession on hand, in cold storage, in transit, etc. Possession limits are the same as day's catch limit except where otherwise specified.

Shore Meals - Fish caught that day and eaten are counted as part of your daily catch limit.

## † Catch and Possession Limits for Salmon and Trout COMBINED (Not exceeding individual species limits where otherwise stated)

- S Div. 1 (Lake St. Clair, St. Clair River and Detroit River) & Div. 2 (Lake Erie, Lake Huron and the west half of Lake Ontario): five (5) salmon and trout in one day, but not more than three (3) may be lake trout, brook trout, and splake combined, and not more than (1) may be Atlantic salmon. In Lake Huron (part of Div. 2), not more than two (2) may be rainbow trout.
- Divs. 3, 4, & 5: five (5) salmon and trout in one day, but not more than two (2) may be lake trout and not more than one (1) may be Atlantic salmon. Divs. 3 & 4, see General Areas Exceptions for rainbow trout in tributaries to Lake Huron and Georgian Bay.
- C • Two (2) in one day, but not more than one (1) may be lake trout, and zero (0) may be Atlantic salmon. Lake Huron (part of Div. 2) not more than one (1) rainbow trout. Divs. 3 & 4, see General Areas Exceptions for rainbow trout in tributaries to Lake Huron and Georgian Bay.

# SOUTHWESTERN ONTARIO

## General Notes

- The Talbot River and its tributaries and the Trent Canal System in Brock Twp., Simcoe County and Ramara Twp., Durham Region are part of Div. 6.
- Sparrow Lake (Orillia and Morrison Twp.s.) is in Div. 4.
- The Niagara River is in Div. 2.
- Severn River System in the Regional Municipality of Muskoka, including Gloucester Pool, is in Div. 4.
- Lake Simcoe is all of Div. 5. See exceptions for lake herring season and limits.

## Attention: Lake Huron Anglers

**\$100.00 REWARD** - for lake trout with internal tags as identified by an external spaghetti tag near the dorsal or pelvic fin. The date, time and location of capture must be submitted along with the entire fish (not gutted). The fish are only located in Lake Huron and tag must state - USGS \$100.00 reward - to qualify. For reward and pick-up locations, please contact:

Hammond Bay Biological Station,  
Millersburg, Michigan  
49759

at (517) 734-4768, after hours at (517) 733-8337.

Nine Mile River - 100 m (328 ft.) above Port Albert Fishway - Ashfield Twp.	4	Fish sanctuary - closed all year.
Normandale (Potters) Creek - Delhi Twp.	3	Fish sanctuary - no fishing from Jan. 1 - Apr. 28 (Fri. before last Sat.) & Oct. 1 - Dec. 31.
North Creek - Delhi Twp., south of Hwy. 3.	3	Fish sanctuary - no fishing from Jan. 1 - Apr. 28 (Fri. before last Sat.).
North River - Tay and Matchedash Twp.	4	Fish sanctuary - no fishing from Apr. 1 - May 12 (Fri. before 2nd Sat.).
Nottawasaga River and tributaries upstream from County Road #50.	4	Salmon (all species) open from Apr. 29 (last Sat.) - Sept. 30.
Nottawasaga River - Esso Twp.; from Hwy. 89 above Nicholson Dam downstream to near the confluence of the Boyne River.	4	Fish sanctuary - no fishing from Jan. 1 - May 12 (Fri. before 2nd Sat.) & Sept. 16 - Dec. 31.
Orchard Creek (Centerville Creek) and tributaries in St. Vincent Twp.	4	Rainbow trout open from June 1 to Sept. 30.
Park Head Creek in Amabel Twp. from the confluence of Park Head Creek with the Sauble River upstream to Hwy. #6.	4	Rainbow trout open from June 1 to Sept. 30.
Pufferlaw Brook - Town of Georgina.	4	Fish sanctuary - no fishing from May 13 (2nd Sat.) - June 23 (Fri. before last Sat.).
Pine River and tributaries upstream from the Nottawasaga River.	4	Salmon (all species) open from Apr. 29 (last Sat.) - Sept. 30.
Pinery Park Pond - Bosanquet Twp., Lambton County.	3	Brook, brown and rainbow trout open from Jan. 1 - Mar. 31 & Apr. 29 (last Sat.) - Sept. 15.
Pottawatomi River and Maxwell Creek - City of Owen Sound and Derby Twp. from the intersection of 15th Street West and 7th Avenue West upstream to the base of the escarpment.	4	Fish sanctuary - no fishing from Apr. 29 (last Sat.) - May 31 & Sept. 1 - Sept. 30.
Pretty River and tributaries - Town of Collingwood and Nottawasaga Twp.	4	Fish sanctuary - no fishing from Jan. 1 - Apr. 28 (Fri. before last Sat.) & Oct. 1 - Dec. 31.
Pretty River and tributaries - Collingwood and Osprey Twp.	4	Rainbow trout open from June 1 to Sept. 30.
Saugen Creek and tributaries - Arran Twp.	4	Fish sanctuary - no fishing from Apr. 29 (last Sat.) - May 31.
Saugeen River - Amabel and Saugeen Twp., Denny's Dam to the concrete abutments downstream.	4	Fish sanctuary - closed to night fishing Oct. 1 - Oct. 31 (one-half hour after sunset to one-half hour before sunrise).
Saugeen River - Brant Twp., from dam face of Maple Hill Dam to 300 m (984 ft.) downstream including Hydro Electric Power Channel.	4	Fish sanctuary - closed all year.
Savern River - Orillia Twp.	4	Fish sanctuary - no fishing from Apr. 1 - May 12 (Fri. before 2nd Sat.).
Sheldon Creek and tributaries upstream from County Road #50	4	Salmon (all species) open from Apr. 29 (last Sat.) - Sept. 30.
Silver Creek and tributaries - Town of Collingwood and Nottawasaga Twp.	4	Fish sanctuary - no fishing from Jan. 1 - Apr. 28 (Fri. before last Sat.).

Waters of Southwestern Ontario (Map A)	Div.	Exceptions
Silver Creek and tributaries - Town of Collingwood, Collingwood and Nottawasaga Twp.	4	Rainbow trout open from June 1 - Sept. 30.
Spencer Creek (Valer's Reservoir) - Flamborough Twp.	4	Fish sanctuary - no fishing from Apr. 1 - June 23 (Fri. before last Sat.).
St. Clair River upstream to the north span of the Bluewater Bridge.	1	Yellow perch catch limit of fifty (50) in one day. Conservation licence limit of twenty-five (25). Walleye catch and possession limit of six (6) in one day, only one (1) greater than 46 cm (18.1 in) in length. Conservation licence limit of two (2) in one day, only one (1) greater than 46 cm (18.1 in) in length.
Stoney Creek - Delhi Twp., south of Hwy. 3 to Big Creek.	3	Fish sanctuary - no fishing from Jan. 1 - Apr. 28 (Fri. before last Sat.).
Sturgeon River - Tay and Oro-Medonte Twp., upstream from the lamprey barrier.	4	Fish sanctuary - no fishing from Jan. 1 - Apr. 28 (Fri. before last Sat.).
Sydenham River - Artificial Spawning Channels Nos. 1 and 2 - Derby Twp.	4	Fish sanctuary - closed all year.
Sydenham River - City of Owen Sound and Derby Twp., from Inglis Falls to Mill Dam, excluding Artificial Spawning Channels Nos. 1 and 2.	4	Fish sanctuary - no fishing from Apr. 29 (last Sat.) - May 31.
Sydenham River - City of Owen Sound, from the Mill Dam to a point 177 m (581 ft.) downstream.	4	Fish sanctuary - closed all year.
Sydenham River and tributaries in the City of Owen Sound and Derby Twp. from the north end of the "Chinese or Rainbow Bridge" in Harrison Park upstream to the base of Inglis Falls.	4	Fish Sanctuary - no fishing from Sept. 1 to Sept. 30.
Talbot River - Ramara Twp.	4	Fish sanctuary - no fishing from Mar. 16 - June 23 (Fri. before last Sat.).
Teller (Bothwell's) Creek - Sydenham Twp. (Grey County).	4	Fish sanctuary - no fishing from Apr. 29 (last Sat.) - May 31.
Thames River - Elgin, Kent, and Middlesex Counties; Chatham to Middlesmiss Bridge.	3	Fish sanctuary - no fishing from Mar. 15 - Apr. 15.
Thames River and its tributaries from the waters edge of Lake St. Clair to the Spring Bank Park Dam in the City of London.	3	Walleye catch limit of six (6), none of which can be between 43 cm (17 in.) and 63.5 cm (25 in.) in length and only one over 63.5 cm (25 in.) in length.
Thames River between the dam at Gordon Pitlock Reservoir and the bridge at Hwy. 59.	4	Fish sanctuary - no fishing from Mar. 15 - May 12 (Fri. before 2nd Sat.).
Tug Channel and unnamed channel between Little Lake and Georgian Bay - Tay and Georgian Bay Twp.	4	Fish sanctuary - no fishing from Apr. 1 - May 12 (Fri. before 2nd Sat.).
Whiteman's Creek and tributaries from the East Quarter Town Line Road downstream to the edge of the Grand River.	4	Fish sanctuary - no fishing from Oct. 1 - Apr. 28 (Fri. before last Sat. in Apr.).
Whiteman's (Hornet) Creek between Robinson Road and Cleaver Sideroad - Brantford Twp.	4	Catch and possession limit of five (5) salmon and trout in one day, but not more than one (1) rainbow or brown trout. Brown trout and rainbow trout minimum length of 50 cm (19.7 in.). Artificial lures with a barbless hook must be used.
Wilcox Lake - Grey County.	4	Brook, brown & rainbow trout open from Jan. 1 - Mar. 31 and Apr. 29 (last Sat.) - Sept. 30.
Wildcat Lake - Grey County.	4	Brook, brown & rainbow trout open from Jan. 1 - Mar. 31 and Apr. 29 (last Sat.) - Sept. 30.
Williams Lake - Grey County.	4	Brook, brown & rainbow trout open from Jan. 1 - Mar. 31 and Apr. 29 (last Sat.) - Sept. 30.
Willow Creek - St. Edmunds Twp.	4	Fish sanctuary - no fishing from Apr. 29 (last Sat.) - May 12 (Fri. before 2nd Sat.).
Young's (Ryerse) Creek - Delhi Twp. and the City of Nanticoke, between the dam on Lot 23, Conc. III in the former Twp. of Charlotteville and the downstream side of the bridge on the Lakeshore Road at Port Ryerse.	3	Fish sanctuary - no fishing from Jan. 1 - Apr. 28 (Fri. before last Sat.).

## DID YOU KNOW . . .

Over one-hundred million fish are caught in Ontario each year.

Two thirds of the fish caught in Ontario are released back into our lakes and rivers each year.

74% of Ontario anglers practice catch and release angling.

**The top 10 sport fish in Ontario (In order of the total number caught per year).**

- Walleye
- Trout (brook, lake, rainbow and brown)
- Smallmouth Bass
- Northern Pike
- Largemouth Bass
- Chinook Salmon
- Whitefish
- Splake
- Muskellunge
- Coho Salmon

Ontario anglers spend more than twice as many days ice fishing as anglers anywhere else in Canada. This amounts to over two million days of ice fishing by Ontario anglers.

Each year over 500,000 non-resident tourist visitors from outside Canada purchase a fishing licence in Ontario.

Over 8 million fish are stocked from MNR's fish culture stations every year.

Ontario's 281 Conservation Officers contact over 400,000 anglers and hunters each year.

The next world record muskie is most likely to be caught in Ontario.

Lake sturgeon can live as long as 150 years. A 60 lbs. (27.3 kg) lake sturgeon may be 50 years old.

Channel catfish up to 25 lbs. (11.4 kg), carp up to 40 lbs. (18.2 kg) and freshwater drum up to 15 lbs. (6.8 kg), offer excellent sport fishing opportunities and these species are often underutilized by anglers.

Ontario has over 2,000 lakes containing lake trout. There are over 250,000 lakes, countless rivers and streams to explore.

Wetlands are not wastelands! They play a vital role as fish spawning and rearing areas for a wide range of fish species such as; muskellunge, northern pike, largemouth bass and panfish. Wetlands also provide habitat for many fish and insect species that sport fish eat.

# Be part of the Hydroelectric Safety Team!

For over a century, people have been drawn to scenic generating stations and dams along Ontario's waterways. But there's danger in being drawn too close to the powerful surge of water from dams or spillways.

***Here are a few suggestions that should travel with you each time you visit a Hydroelectric station or dam:***

## **When boating or fishing . . .**

- approach stations slowly. Always wear a personal flotation device.
- watch for warning signs or barriers, above or below dams, and stay a safe distance outside of them.
- stay clear of the "headpond" or "tailrace" water at dams and spillways, water level and flow can change without warning. It can quickly swamp your power vessel, canoe or kayak, and put you in the grip of an undertow.
- don't wade into moving water. Be sure of your footing and watch for obstacles.
- stay sober. Drinking and operating a power vessel is just as dangerous and illegal as drinking and driving a car.

## **When Swimming . . .**

- stay away from dams and spillways where strong undertows and turbulence can overcome you without warning. Obey all "No Swimming" signs.
- always swim with a buddy.
- never dive or jump from structures into the water.

If you fall into the headwaters above a dam, or into the tailrace area below, swim diagonally to shore with the current or edge along the floating barrier in the headwaters to shore. Do not try to retrieve a swamped vessel.

## **When hiking . . .**

- don't climb station or dam structures. Use only clearly indicated walkways, observation points and stairways.
- stay back from the edge of a waterway because footing may be slippery. If you must walk near water after dark, use a flashlight. In the winter, never go out on the ice because moving water underneath keeps the ice thin.

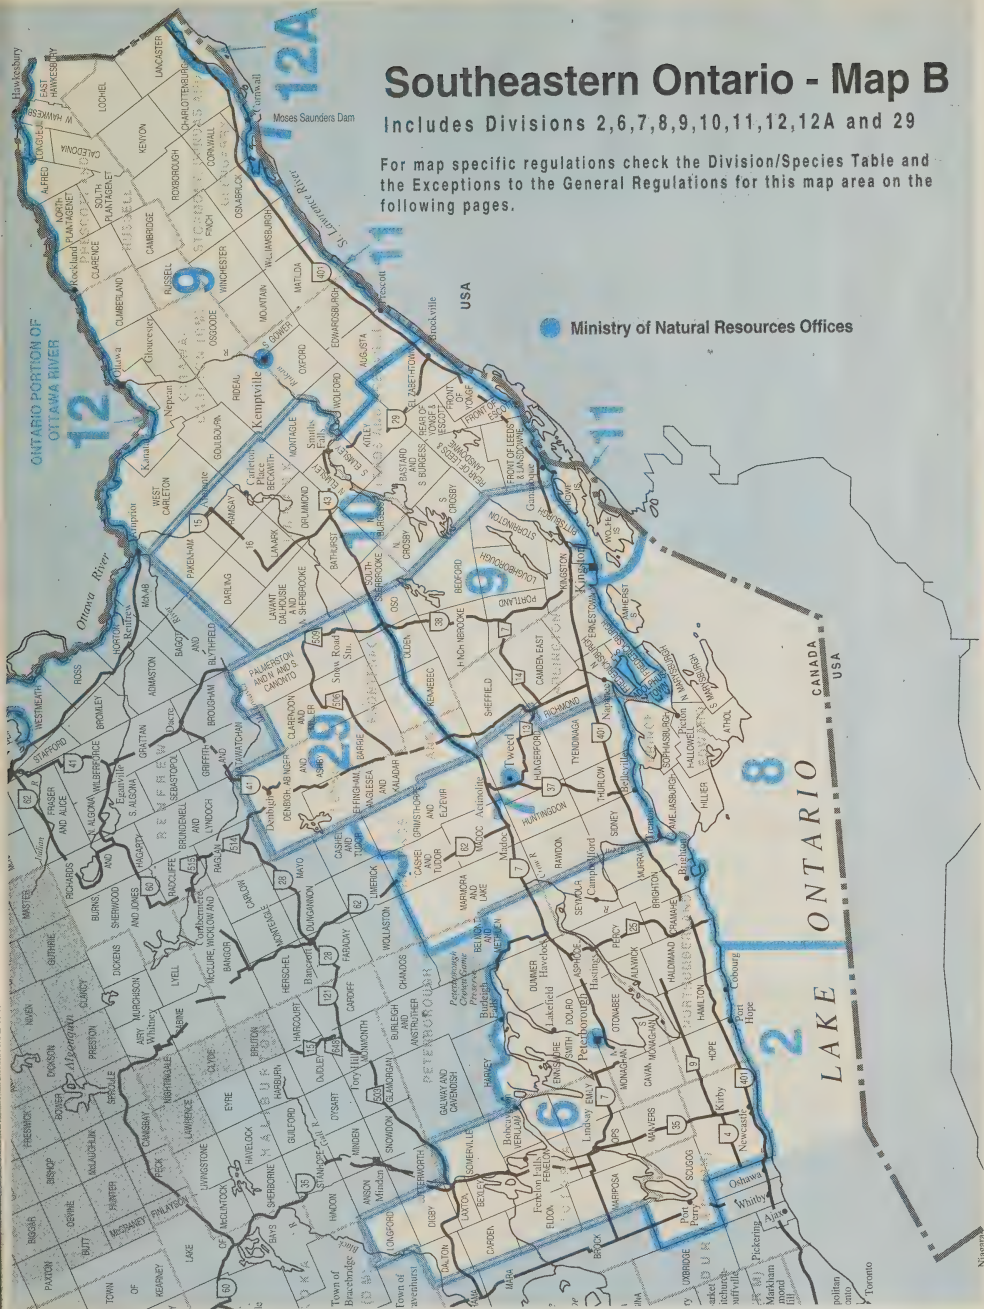

**Take Safety with You to Hydroelectric Stations and Dams**

# Southeastern Ontario - Map B

Includes Divisions 2, 6, 7, 8, 9, 10, 11, 12, 12A and 29

For map specific regulations check the Division/Species Table and the Exceptions to the General Regulations for this map area on the following pages.

# SOUTHEASTERN ONTARIO (MAP B) Division/Species Table

Open Seasons (all dates inclusive) - Catch, Possession and Size Limits

You **MUST** check the Exceptions on pages 35 to 37 for additional regulations on specific water bodies

*Note: Species NOT listed above have a year round open season and no catch and possession limits unless specified in the Exceptions to the General Regulations.*

*\*except Dec. 24*

## Size Limits:

Unless otherwise stated, the length referred to is total length. (See page 5)

Size restrictions listed above apply to both Sport Fishing and Conservation licences.

## † Catch and Possession Limits for Salmon and Trout COMBINED

[Not exceeding individual species limits where otherwise stated]

**S** • Dws. 2, 8 and 11 (Lake Ontario and St. Lawrence River): five (5) salmon and trout in one day, but not more than three (3) may be lake trout, brook trout, and splake combined.

• Dws. 6, 7, 9, 10, 12, 12A & 29: five (5) salmon and trout combined in one day.

**C** • Two (2) in one day with not more than one (1) lake trout, and zero (0) Atlantic salmon.

## Daily Catch and Possession Limits:

Daily catch and possession limits will depend on the type of fishing licence you hold, the species and where they are caught and in some cases the size of the fish.

The catch limit is the number of fish you are allowed to catch and keep in one day. The possession limit is the number you are allowed to have in your possession on hand, in cold storage, in transit, etc. Possession limits are the same as one day's catch limit except where otherwise specified.

**Shore Meals** - Fish caught that day and eaten are counted as part of your daily catch limit.

# SOUTHEASTERN ONTARIO (MAP B) Division/Species Table

Open Seasons (all dates inclusive) - Catch, Possession and Size Limits

**You MUST check the Exceptions on pages 35 to 37 for additional regulations on specific water bodies**

**FISHING LICENCE LIMITS:**

*Note: Species NOT listed above have a year-round open season and no catch and possession limits unless specified in the Exceptions to the General Regulations.*

#### Size Limits:

Unless otherwise stated, the length referred to is total length. (See page 5)

Size restrictions listed above apply to both Sport Fishing and Conservation licences.

**Fork length** is a measure from the tip of the mouth with jaws closed to the central part of the tail fin (see page 6).

#### Daily Catch and Possession Limits:

Daily catch and possession limits will depend on the type of fishing licence you hold, the species and where they are caught and in some cases the size of the fish.

The catch limit is the number of fish you are allowed to catch and keep in one day. The possession limit is the number you are allowed to have in your possession on hand, in cold storage, in transit, etc. Possession limits are the same as one day's catch limit except where otherwise specified.

**Store Meats** - Fish caught that day and eaten are counted as part of your daily catch limit.

**\*except Dec. 24**  
† Catch and Possession Limits for Salmon and Trout COMBINED  
[Not exceeding individual species limits where otherwise stated]

**S** • Divs. 2, 8 and 11 (Lake Ontario and St. Lawrence River): five (5) salmon and trout in one day, but not more than three (3) may be lake trout, brook trout, and splake combined.

• Divs. 6, 7, 9, 10, 12, 12A & 29: five (5) salmon and trout combined, in one day.

**C** • two (2) in one day with not more than one (1) lake trout, and zero (0) Atlantic salmon.

# SOUTHEASTERN ONTARIO

## General Notes

- All fishing is prohibited in Div. 6 (including Kawartha Lakes and Dalrymple Lake in Victoria and Simcoe Counties) from Nov. 16 to the Friday before the last Saturday in April in any year. This restriction does not apply to Lake Scugog ice fishing in Jan. and Feb.; nor does it affect "Additional Fishing Opportunities" listed below.
- Lake Scugog: walleye and yellow perch seasons open Jan. 1 - Feb. 29.
- Div. 10 includes Opinicon, Wolfe and Silver Lakes in the County of Frontenac and White, Brook, Clyde and Bartraw Lakes in the County of Renfrew.
- The waters of the Trent River at Percy Reach to Lock 9 are in Div. 7.

## Bait Restrictions

- In Divs. 9, 10 & 29 there is a year-round ban on fishing with live or dead lake herring (cisco) as bait.

## Licences for Provincial Border Waters

Ontario-Quebec Border: You may fish in Lake Timiskaming and throughout Div. 12 (Ottawa River) and in Div. 12A (Lake St. Francis) with either an Ontario Resident or a Quebec Resident fishing licence.

**There is no longer a spousal exemption for persons fishing under the authority of a Quebec Resident Fishing Licence.** A spouse who is fishing with the holder of a Quebec Resident Fishing Licence, must now have their own licence.

## Additional Fishing Opportunities

<b>Mair Lake</b> - South Canonto Twp.	29		

\* Except December 24.

## Extended Fall Season for Rainbow and Brown Trout

The normal open season [Apr. 29 (last Sat.) - Sept. 30] is extended to Apr. 29 (last Sat.) - Dec. 31 in:

Location	Div.	Location	Div.
Northumberland County, downstream of Hwy. 2, except the Ganaraska River which may only be fished downstream of the south side of the C.P.R. bridge.	6	Regional Municipality of Durham South of Hwy. 2.	6

# Exceptions to the General Regulations Southeastern Ontario

General Areas of Southeastern Ontario (Map B)	Div.	Exceptions
Corrwall Recreation Area - Corrwall Twp.	9	Live fish may not be used as bait or possessed for use as bait.
Division 5 (including the Kawartha Lakes and Dalrymple Lake in Victoria and Simcoe Counties and the Talbot River, its tributaries and the Trent Canal located in Ramara Twp., Simcoe County and Brock Twp., Durham Region).	6	Fishing prohibited for all fish species (except baitfish) from Nov. 16 - Apr. 28 (Fri. before the last Sat.).
George Charlies' Fishing Area.	9	Live fish may not be used as bait or possessed for use as bait.
Lancaster and Charlottenburgh townships and the City of Corrwall except for those waters of the St. Lawrence River (Lake St. Lawrence) west of the dam at the Robert H. Saunders Generating Station.	9	Yellow perch closed from Apr. 1 - May 12 (Fri. before 2nd Sat.). Yellow perch daily catch limit of one-hundred (100), possession limit of two hundred (200). Conservation catch limit of fifty (50), possession limit of one-hundred (100).
Waters lying between Hwy. 2 and the southerly limit of the C.N.R. right-of-way in the Town of Newcastle and in the townships of Hope, Hamilton, Haldimand, Cramahe, Brighton and Murray, except the Ganaraska River which may only be fished downstream of the south side of the C.P.R. bridge to Lake Ontario.	6	Pacific salmon open from Apr. 29 (last Sat.) - Dec. 31. Atlantic salmon closed all year.
Waters lying between the southerly limit of the C.N.R. right-of-way and Lake Ontario in the townships of Hope, Hamilton, Haldimand, Cramahe, Brighton and Murray excluding the Ganaraska River, Gages Creek, and Cobourg Brook (Cobourg Creek/Hadley Creek).	6	Pacific salmon open from Apr. 29 (last Sat.) - Sept. 30. Atlantic salmon open from Apr. 29 (last Sat.) - Sept. 30. Atlantic salmon minimum length of 63 cm (24.8 in.).
Waters lying upstream of Hwy. 2 in the Town of Newcastle and in the townships of Hope, Hamilton, Haldimand, Cramahe, Brighton and Murray.	6	Pacific salmon open from Apr. 29 (last Sat.) - Sept. 30. Atlantic salmon closed all year.
Waters of Southeastern Ontario (Map B)	Div.	Exceptions
Ashby Lake.	29	Fish sanctuary - no fishing from Dec. 1 - May 19 (Fri. before 3rd Sat.).
Barker Lake.	29	Fish sanctuary - no fishing from Dec. 1 - May 19 (Fri. before 3rd Sat.).
Barnard Lake - Ashby Twp.	29	Lake trout must be less than 33 cm (13 in.) or greater than 40 cm (15.7 in.) in length. Only one line may be used when angling through the ice.
Bennett Lake.	10	Walleye minimum length of 41 cm (16.1 in.).
Big Rideau Lake.	10	The use of alewife or gizzard shad (live or dead) as bait is prohibited.
Black Creek - Front of Leeds and Lansdowne Twp.	10	Fish sanctuary - closed all year.
Black Donald Lake and the Madawaska River - (North Canoto Twp.).	29	Northern pike open from May 20 (3rd Sat.) - Nov. 30. Walleye open from May 20 (3rd Sat.) - Mar. 30.
Brule Lake - Miller Twp.	29	Lake trout must be less than 40 cm (15.7 in.) or greater than 55 cm (21.7 in.) in length. Only one line may be used when angling through the ice.
Buckshot Lake - Miller and Abinger Twps.	29	Lake trout must be less than 40 cm (15.7 in.) or greater than 55 cm (21.7 in.) in length. Only one line may be used when angling through the ice.
Burleigh Falls, Perry's Creek, Stony Lake - Smith and Harvey Twps., Trent-Severn Dam to Stony Lake.	6	Fish sanctuary - no fishing from Apr. 29 (last Sat.) - May 19 (Fri. after 2nd Sat.).
Charleston Lake.	10	The use of alewife or gizzard shad (live or dead) as bait is prohibited.
Chequamegon Lake - Bridgenorth Causeway - Smith and Ennismore Twps., 100 m (328 ft.) on both sides of causeway on County Rd. No. 16.	6	Fish sanctuary - no fishing from Apr. 29 (last Sat.) - May 12 (Fri. before 2nd Sat.).
Christie Lake - Bathurst Twp. and downstream to bridge at Tay River, Lot 7, Conc. II.	10	Fish sanctuary - no fishing from Apr. 1 - June 5 (1st Mon.). Walleye must be less than 35 cm (13.8 in.) or greater than 50 cm (19.7 in.).
Clayton Lake.	10	Walleye minimum length of 41 cm (16.1 in.).
Cobourg Brook from the downstream side of the lamprey barrier downstream to the south side of the King St. Bridge in the town of Cobourg.	6	Fish sanctuary - closed all year.
Consecon Creek - Hillier and Ameliasburgh Twps., from the dam in the Village of Consecon to Weller's Bay.	8	Fish sanctuary - no fishing from Apr. 1 - May 5 (Fri. before 1st Sat. in May).
Consecon Creek - Hillier Twp., from Lot 86 in Conc. V to the mouth of the creek.	8	Fish sanctuary - no fishing from Apr. 1 - May 5 (Fri. before 1st Sat. in May).
Crotch Lake.	29	Walleye legal size under 46 cm (18.1 in.) and over 61 cm (24 in.).
Crotch Lake and Mississippi River - Palmerston Twp., from Sidedam Rapids to north shore of Skull Island including McLean's Bay.	29	Fish sanctuary - no fishing from Mar. 1 - June 5 (1st Mon.).
Crowe Lake (44°29'N., 77°44'W.).	7	Muskellunge minimum length of 102 cm (40 in.).
Crowe River - Village of Narmora.	7	Fish sanctuary - no fishing from Apr. 1 - May 12 (Fri. before 2nd Sat.).
Crowe River from Crowe Lake downstream to the westerly boundary of the County of Hastings.	7	Muskellunge minimum length of 102 cm (40 in.).
Crystal Lake - Ashby Twp.	29	Lake trout must be less than 33 cm (13 in.) or greater than 40 cm (15.7 in.) in length. Only one line may be used when angling through the ice.
Dalhousie Lake and Mississippi River within a 300 m (984 ft.) radius of the bridge of the twp. road crossing the Mississippi River where it enters Dalhousie Lake - Dalhousie Twp.	10	Fish sanctuary - no fishing from Mar. 1 - June 5 (1st Mon.).
Dickey Lake - Lake Twp.	7	Lake trout must be less than 33 cm (13 in.) or greater than 40 cm (15.7 in.) in length. Only one line may be used when angling through the ice.
Effingham Lake - Effingham Twp.	29	Lake trout must be less than 33 cm (13 in.) or greater than 40 cm (15.7 in.) in length. Only one line may be used when angling through the ice.
Fawn Lake - Clarendon Twp.	29	Walleye legal size under 46 cm (18.1 in.) and over 61 cm (24 in.).
Fenelon Falls - Fenelon Twp., Trent-Severn Dam to second power line 1000 m (3281 ft.) downstream.	6	Fish sanctuary - no fishing from Apr. 29 (last Sat.) - May 19 (Fri. after 2nd Sat.).
Fishog River, from the mouth of the river at Head Lake (44°45'N., 78°54'W.) to the base of the waterfalls approx. 1.5 km (0.9 mi.) upstream.	6	Fish sanctuary - no fishing from Dec. 29 (last Sat.) to May 19 (Fri. after 2nd Sat.).
Fox Lake - Ashby Twp.	29	Fish sanctuary - no fishing from Dec. 1 - May 19 (Fri. before 3rd Sat.).
Ganaraska River - Town of Port Hope, from Hwy. 401 downstream to the south side of the Jocelyn St. Bridge.	6	Fish sanctuary - closed all year.
Ganaraska River - Town of Port Hope from County Road #2 (Walton Street) to the south side of the C.P.R. bridge - 200 m (656 ft.).	6	Rainbow trout, brown trout and Pacific salmon open from Apr. 29 (last Sat.) - Sept. 30.

Waters of Southeastern Ontario (Map B)	Div.	Exceptions
Gannon's Narrows - Harvey and Ennismore Twp.	6	Fish sanctuary - no fishing from Apr. 29 (last Sat.) - May 12 (Fri. before 2nd Sat.).
Green Lake - Lavant Twp.	10	Live fish may not be used as bait or possessed for use as bait.
Grimshorpe Lake - Grimshorpe Twp.	7	Lake trout must be less than 40 cm (15.7 in.) or greater than 55 cm (21.7 in.) in length. Only one line may be used when angling through the ice..
Gull River (Cobocank) - Bexley and Somerville Twp. from Trent-Severn Dam downstream to narrows approaching Balsam Lake.	6	Fish sanctuary - no fishing from Apr. 29 (last Sat.) - May 19 (Fri. after 2nd Sat.).
Headley Falls - Seymour Twp., all water flowing from Seymour Lake from the north-westerly side of the bridge on County Road No. 50 to Crowe Bay.	6	Fish sanctuary - no fishing from Apr. 29 (last Sat.) - May 19 (Fri. after 2nd Sat.).
Hoasic Creek (known as Nash Creek) - Williamsburgh Twp.	9	Fish sanctuary - no fishing from May 14 - June 30 (last Fri.).
Hoople Creek - Canabruk Twp.	9	Fish sanctuary - no fishing from Apr. 1 - Apr. 30.
Indian River and Clayton Lake within a 300 m (984 ft.) radius of the Command Bridge crossing the Indian River where it enters Clayton Lake in Lanark Twp.	10	Fish sanctuary - no fishing from Mar. 1 - June 5 (1st Mon.).
Jasper Lake.	29	Fish sanctuary - no fishing from Dec. 1 - May 19 (Fri. before 3rd Sat.).
Katchewanooka Lake (Young's Point) - Smith and Douro Twp. from Trent-Severn Dam to Hwy. 28 bridge.	6	Fish sanctuary - no fishing from Apr. 29 (last Sat.) - May 19 (Fri. after 2nd Sat.).
Kishkebus Lake.	29	Fish sanctuary - no fishing from Dec. 1 - May 19 (Fri. before 3rd Sat.).
Lake Ontario.	2, 29	person who is angling from a boat may use two (2) lines in the open waters of Lake Ontario except for the Bay of Quinte (the waters lying west of the Glenora Ferry to the westernmost entrance of the Murray Canal), Presque Isle Bay, Walkers Bay, East Lake, West Lake, Frenchman Bay, Hamilton Harbour and all tributaries of Lake Ontario. Sturgeon closed all year.
Lake Ontario and the St. Lawrence River, excluding Lake St. Francis.	2, 8 & 11	Catch and possession limit of five (5) salmon or trout in one day but not more than three (3) may be lake trout, brook trout and splake combined.
Lake Scugog.	6	Walleye and sauger open from Jan. 1 - Feb. 29 (last day) & May 13 (2nd Sat.) - Nov. 15 (Yellow perch open from Jan. 1 - Feb. 29 (last day) & Apr. 29 (last Sat.) - Nov. 15
Lake Scugog, 100 m (328 ft.) on both sides of Hwy. 7A (causeways) - Scugog Twp.	6	Fish sanctuary - no fishing from Apr. 1 - May 12 (Fri. before 2nd Sat.).
Lake St. Francis and the waters of the St. Lawrence River lying east of the dam at the Robert H. Saunders Generating Station, and the waters in Lancaster and Charlottenburgh Twp. and the City of Cornwall.	9 & 12A	Yellow perch catch limit of one-hundred (100), possession limit of two-hundred (200). Anglers fishing from a boat in these waters cannot have more than one-hundred (100) yellow perch onboard, even if some or all of the yellow perch were taken from other waters.
Leatherstock Lake - Denbigh Twp.	29	Fish sanctuary - no fishing from Dec. 1 - May 19 (Fri. before 3rd Sat.).
Lingham Lake - Grimshorpe Twp.	7	Fish sanctuary - no fishing from Jan. 1 - June 23 (Fri. before last Sat.) & Dec. 1 - Dec. 31.
Little Green Lake - Darling Twp.	10	Live fish may not be used as bait or possessed for use as bait.
Lower Mazinaw Lake - Abinger and Barrie Twp.	29	Only one line may be used when angling through the ice.
Lovesick Dams - Smith and Harvey Twp.	6	Fish sanctuary - no fishing from Apr. 29 (last Sat.) - May 19 (Fri. after 2nd Sat.).
Lower Buckhorn Lake - Smith and Harvey Twp. from Trent-Severn Dam to a point 400 m (1312 ft.) below the dam.	6	Fish sanctuary - no fishing from Apr. 29 (last Sat.) - May 19 (Fri. after 2nd Sat.).
Lower Mazinaw Lake - Abinger and Barrie Twp.	29	Only one line may be used when angling through the ice.
Lucky Lake - Miller Twp.	29	Lake trout must be less than 40 cm (15.7 in.) or greater than 55 cm (21.7 in.) in length. Only one line may be used when angling through the ice.
Madawaska River and Lake Madawaska (Amorip head pond) - West Carleton Twp.	9	Northern pike and walleye open from May 20 (3rd Sat.) - Mar. 31.
Madawaska River and Lake Madawaska (Amorip head pond) - Pakenham Twp.	10	Northern pike and walleye open from May 20 (3rd Sat.) - Mar. 31.
Mayhew Creek.	7	Rainbow trout closed from Oct. 1 - Apr. 28 (Fri. before last Sat.).
Mazinaw Lake.	29	Lake trout must be less than 40 cm (15.7 in.) or greater than 55 cm (21.7 in.) in length. Only one line may be used when angling through the ice.
Mississippi River - Drummond Twp., from 79.2 m (260 ft.) east to 240.8 m (790 ft.) west of Main Street.	10	Fish sanctuary - closed all year.
Mississippi River - Drummond Twp., from 79.2 m (260 ft.) east of Main Street to Mississippi Lake.	10	Fish sanctuary - no fishing from Mar. 1 - June 5 (1st Mon.).
Mississippi River - Pakenham Twp., between the falls in the Town of Almonte and upstream side of bridge on Lanark County Road 20.	10	Fish sanctuary - no fishing from Mar. 1 - June 5 (1st Mon.).
Moira Lake.	7	Muskellunge minimum length of 102 cm (40 in.).
Moira River and Bay of Quinte within Belleville Harbour - City of Belleville.	8	Muskellunge - no fishing from Apr. 1 - May 5 (Fri. before 1st Sat. in May).
Moira River, from the first dam above Lake Ontario (in the city of Belleville) upstream to Hwy 7.	7	Muskellunge minimum length of 102 cm (40 in.).
Mosque Lake - Miller Twp.	29	Lake trout closed from Sept. 9 - May 19 (Fri. before 3rd Sat.).
Naponee River - Town of Naponee.	9	Fish sanctuary - no fishing from Apr. 1 - May 5 (Fri. before 1st Sat. in May).
Newboro Lake (Old Iron Mine Bay) - N. Crosby and S. Crosby Twp.	10	Fish sanctuary - closed all year.
Newboro Lake (The Bog) - S. Crosby Twp.	10	Fish sanctuary - closed all year.
Opinicon Lake (Darlings Bay) - Storrington Twp.	10	Fish sanctuary - closed all year.
Opinicon Lake (Murphy Bay) - S. Crosby Twp.	10	Fish sanctuary - closed all year.
Otonabee River (Bobcaygeon) - Venulam and Harvey Twp. from Trent-Severn Dam and Little Bob Dam to Pigeon Lake.	6	Fish sanctuary - no fishing from Apr. 29 (last Sat.) - May 19 (Fri. after 2nd Sat.).
Otonabee River (Rosedale/Fenelon Twp.) Trent-Severn Dam to Cameron Lake.	6	Fish sanctuary - no fishing from Apr. 29 (last Sat.) - May 19 (Fri. after 2nd Sat.).
Otonabee River (Peterborough) from Trent-Severn Dam to Lock 19 to Bensford Bridge.	6	Fish sanctuary - no fishing from Apr. 29 (last Sat.) - May 19 (Fri. after 2nd Sat.).
Ottawa River between the Quebec Carillon Power House and Pointe Fortune.	12	Fish sanctuary - no fishing from Apr. 1 - Apr. 30.
Otter Lake - Ashby Twp.	29	Lake trout must be less than 33 cm (13 in.) or greater than 40 cm (15.7 in.) in length. Only one line may be used when angling through the ice.
Paddy Lake - Dalhousie Twp.	10	Live fish may not be used as bait or possessed for use as bait.
Palmerston Lake - Palmerston and South Canobo Twp.	29	Lake trout must be less than 40 cm (15.7 in.) or greater than 55 cm (21.7 in.) in length. Only one line may be used when angling through the ice.
Pierce's Flow - Rear of Leeds and Lansdowne Twp.	10	Fish sanctuary - closed all year.
Pigeon River (Oremsee) - Emily Twp., from Oremsee Dam to C.N.R. bridge.	6	Fish sanctuary - no fishing from Apr. 29 (last Sat.) - May 19 (Fri. after 2nd Sat.).
Pike Lake.	10	Walleye legal size under 35 cm (13.8 in.) and over 50 cm (19.7 in.).
Rory's Lake - Effingham Twp.	29	Lake trout must be less than 40 cm (15.7 in.) or greater than 55 cm (21.7 in.) in length. Only one line may be used when angling through the ice.

Waters of Southeastern Ontario (Map B)	Div.	Exceptions
Roain River - Those portions of the river in the village of Martintown and Lot 43, Concession 1, north side of Roain River in Charlottenburgh Twp.	9	Fish sanctuary - no fishing from Apr. 1 - Apr. 30.
Redhorse Lake.	10	The use of alewife or gizzard shad (live or dead) as bait is prohibited.
Rideau Lake (The Bog), Rideau Lake (Long Island) - Bassard and S. Burgess Twp.	10	Fish sanctuary - closed all year.
Robertson Lake.	10	No walleye size limit.
Sand Lake - N. Crosby Twp., that part lying in Lots 15 and 16 in Conc. IX and Lot 15 in Conc. VIII, and the waters of the river flowing between Wolfe Lake and Sand Lake.	10	Fish sanctuary - closed all year.
Sand Lake (Freeman's Bay) - S. Crosby Twp.	10	Fish sanctuary - closed all year.
Scugog River (Lindsay - Ops Twp.) from Trent-Severn Dam to Ops/Fenelon boundary.	6	Fish sanctuary - no fishing from Apr. 29 (last Sat.) - May 19 (Fri. after 2nd Sat.).
South Nation River - Cambridge Twp., Coupal's dam in Casselman downstream to the westerly limit of Lot 11 Conc. V.	9	Fish sanctuary - no fishing from Apr. 1 - Apr. 30.
South Nation River - Finch Twp., Hamlet of Chrysler	9	Fish sanctuary - no fishing from Apr. 1 - Apr. 30.
South Nation River - North Plantagenet Twp., between north side of Conc. IV and a point 30.5 m (100 ft) upstream of C.P.R. right-of-way.	9	Fish sanctuary - no fishing from Apr. 1 - Apr. 30.
South Nation River - Winchester Twp., Village of Chesterville.	9	Fish sanctuary - no fishing from Apr. 1 - Apr. 30.
Stoco Lake (44°28'N, 77°17'W).	7	Muskellunge minimum length of 102 cm (40 in.).
Talbot River - Brock and Mara Twps.	6	Fish sanctuary - no fishing from Mar. 16 - June 23 (Fri. before last Sat.).
Talbot River - Kirkfield - Carden Twp., fronting Conc. VII, VIII and IX.	6	Fish sanctuary - no fishing from Apr. 29 (last Sat.) - May 19 (Fri. after 2nd Sat.).
Tay River in lots 3-6 in Concession 2 & 3 in Bathurst Twp.	10	Fish sanctuary - no fishing from Apr. 1 - June 5 (1st Mon.).
Taylor Lake.	10	Walleye minimum length of 41 cm (16.1 in.).
Thanes Lake.	7	Lake trout must be less than 40 cm (15.7 in.) or greater than 55 cm (21.7 in.) in length. Only one line may be used when angling through the ice.
Trent River - City of Quinte West between the C.N.R. bridge and the Dundas Street bridge.	7	Fish sanctuary - no fishing from Apr. 1 - May 5 (Fri. before 1st Sat. in May).
Trent River, from the first dam (Number One) above Lake Ontario upstream to Lock Nine (Meyers Lock) at the head of Percy Reach.	7	Muskellunge minimum length of 102 cm (40 in.).
Trent River fronting Lots 4 & 5 Conc. VIII, Asphodel Twp. and Lots 14 & 15 Conc. XII, Percy Twp. (Village of Hastings).	7	Fish sanctuary - no fishing from Apr. 29 (last Sat.) - May 19 (Fri. after 2nd Sat.).
Twin Island Lake.	29	Walleye legal size under 46 cm (18.1 in.) and over 61 cm (24 in.).
Weslemkoon Lake - Ashby Twp.	29	Lake trout must be less than 33 cm (13 in.) or greater than 40 cm (15.7 in.) in length. Only one line may be used when angling through the ice.
Westport Pond - N. Crosby Twp.	10	Fish sanctuary - closed all year.
White Lake.	10	Walleye legal size under 35 cm (13.8 in.) and over 50 cm (19.7 in.).
White Lake - Olden Twp.	9	Fish sanctuary - closed all year.
Whitfish Lake (Jones Falls Bay) - S. Crosby Twp.	10	Fish sanctuary - closed all year.
Wilke Creek - Front of Leeds and Lansdowne Twps.	10	Fish sanctuary - closed all year.

## Lake Trout Fishing Opportunities . . . Now and in the Future

The Ministry of Natural Resources has changed lake trout and splake fishing regulations in **Divisions 7, 9, 10 and 29**, to develop consistent regulations, to protect naturally reproducing stocks of lake trout and to provide more fishing opportunities.

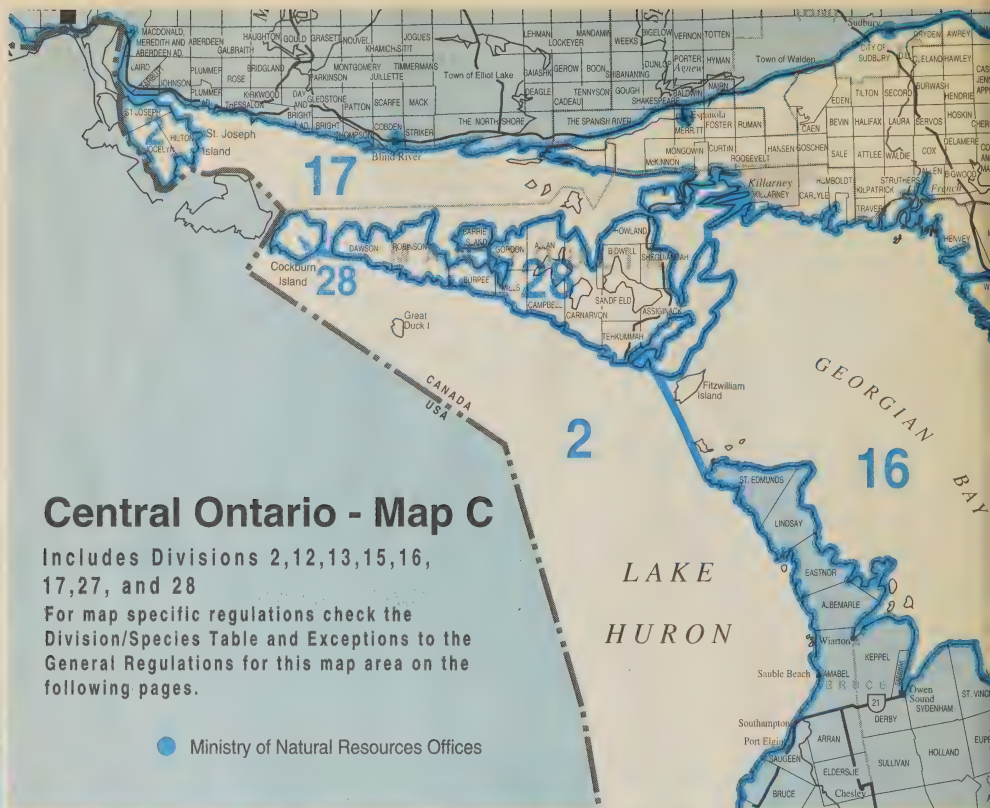

The new regulations adopt the following three approaches to managing lake trout fisheries:

- fisheries that are maintained by natural reproduction will continue to be regulated to control harvest at sustainable levels.
- fisheries that are not at risk, receive low fishing pressure or that are supported by hatchery stockings, will have increased angling opportunities with fewer restrictions on seasons and limits or size of lake trout harvested.
- fisheries that are maintained by hatchery stocking (put, grow and take fisheries), will continue to be stocked to support enhanced angling opportunities and will be open to fishing all year.

Splake and lake trout fisheries maintained by hatchery stocking will be open to fishing all year to offset more restrictive regulations that are required to protect naturally reproducing populations.

You can fish for a native, wild lake trout under fairly strict rules, though much of your catch will have to be released. Or, you can go to one of the many stocked lakes, where the fish are likely to be smaller, but more numerous, available year-round, and where there are no restrictions on the size of fish kept.

## THE CHOICE IS YOURS!

## Central Ontario - Map C

Includes Divisions 2, 12, 13, 15, 16, 17, 27, and 28

For map specific regulations check the Division/Species Table and Exceptions to the General Regulations for this map area on the following pages.

● Ministry of Natural Resources Offices

## CENTRAL ONTARIO

### General Notes

- **Algonquin Park:** All fishing is prohibited in Div. 13 from Jan. 1 - April 28 (Fri. before last Sat.) & Dec. 1 - Dec. 31.
- **Lake Nipissing:** All angling in Div. 27 is prohibited from Mar. 8 - May 19 (Fri. before Victoria Day) & Oct. 16 - Dec. 31.
- **St. Marys River:** all waters east or down river of the compensation works at the head of the St. Marys River rapids in Sault Ste. Marie and including Echo Bay are within Div. 17.

### Licences for Provincial Border Waters

**Ontario-Quebec Border:** You may fish in Lake Timiskaming and throughout Div. 12 (Ottawa River) and in Div. 12A (Lake St. Francis) with either an Ontario Resident or a Quebec Resident fishing licence.

**There is no longer a spousal exemption for persons fishing under the authority of a Quebec Resident Fishing Licence.**

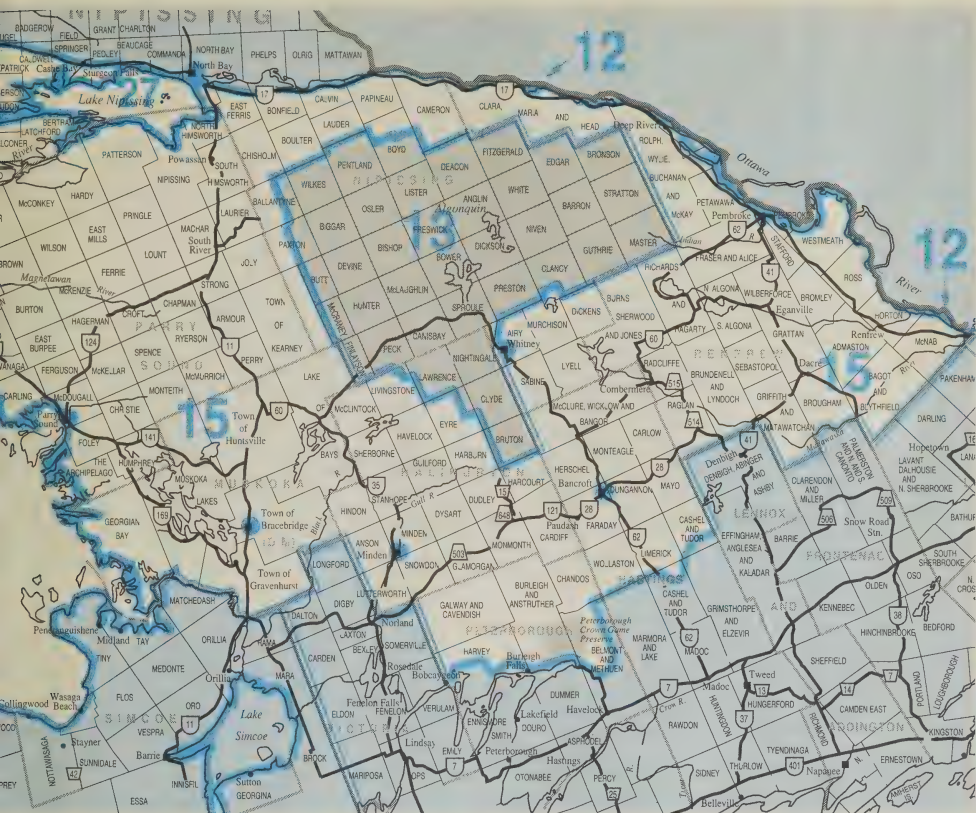

A spouse who is fishing with the holder of a Quebec Resident Fishing Licence, must now have their own licence.

### Attention: Lake Huron Anglers

**\$100.00 REWARD** - for lake trout with internal tags as identified by an external spaghetti tag near the dorsal or pelvic fin. The date, time and location of capture must be submitted along with the entire fish (not gutted). The fish are only located in Lake Huron and tag must state - USGS \$100.00 reward - to qualify. For reward and pick-up locations, please contact:

Hammond Bay Biological Station,  
Millersburg, Michigan  
49759

at (517) 734-4768, after hours at (517) 733-8337.

## Lake Trout Fishing Opportunities . . . Now and in the Future

The Ministry of Natural Resources has changed lake trout and splake fishing regulations in **Division 15** to develop consistent regulations, to protect naturally reproducing stocks of lake trout and to provide more fishing opportunities.

The new regulations adopt the following three approaches to managing lake trout fisheries:

- fisheries that are maintained by natural reproduction will continue to be regulated to control harvest at sustainable levels.
- fisheries that are not at risk, receive low fishing pressure or that are supported by hatchery stockings, will have increased angling opportunities with fewer restrictions on seasons and limits or size of lake trout harvested.
- fisheries that are maintained by hatchery stocking (put, grow and take fisheries), will continue to be stocked to support enhanced angling opportunities and will be open to fishing all year.

Splake and lake trout fisheries maintained by hatchery stocking will be open to fishing all year to offset more restrictive regulations that are required to protect naturally reproducing populations.

You can fish for a native, wild lake trout under fairly strict rules, though much of your catch will have to be released. Or, you can go to one of the many stocked lakes, where the fish are likely to be smaller, but more numerous, available year-round, and where there are no restrictions on the size of fish kept.

*Note: Species NOT listed above have a year round open season and no catch and possession limits unless specified in the Exception to the General Regulations.*

## Size Limits:

Unless otherwise stated, the length referred to is total length. (See page 5)  
Size restrictions listed above apply to both Sport Fishing and Conservation licences.  
**Fork length** is a measure from the tip of the mouth with jaws closed to the central part of the tail fin (see page 6).

## Daily Catch and Possession Limits:

Daily catch and possession limits will depend on the type of fishing licence you hold, the species and where they are caught and in some cases the size of fish.

The **catch limit** is the number of fish you are allowed to catch and keep in one day. The **possession limit** is the number you are allowed to have in your possession on hand, in cold storage, in transit, etc. Possession limits are the same as one day's catch limit except where otherwise specified.

**Shore Meals** - Fish caught that day and eaten are counted as part of your daily catch limit.

## † Catch and Possession Limits for Salmon and Trout COMBINED (Not exceeding individual species limits where otherwise stated)

- S** • Lake Huron (south of the north end of the Bruce Peninsula), and Georgian Bay (excluding Big Sound) (Divs. 2 and 16): five (5) salmon and trout, but not more than three (3) may be lake trout, spake and brook trout combined, and not more than two (2) may be rainbow trout. See the "Exceptions to the General Regulations" on p. 45 for regulations affecting rainbow trout, lake trout, spake and brook trout hybrid in the waters of Big Sound.
- Lake Huron (north of the north end of the Bruce Peninsula) and the North Channel (Divs. 2 and 17): five (5) salmon and trout, but not more than three (3) may be lake trout, spake and brook trout combined.
- Divs. 12, 13, 15, 27 & 28: five (5) salmon and trout combined, in one day.
- Two (2) in one day with not more than one (1) lake trout.
- In Lake Huron, south of the north end of the Bruce Peninsula only one (1) rainbow trout in one day.

*Note: Species NOT listed above have a year round open season and no catch and possession limits unless specified in the Exceptions to the General Regulations.*

## Size Limits:

Unless otherwise stated, the length referred to is total length. (See page 5)

Size restrictions listed above apply to both Sport Fishing and Conservation licences.

## Daily Catch and Possession Limits:

Daily catch and possession limits will depend on the type of fishing licence you hold, the species and where they are caught and in some cases the size of fish.

The **catch limit** is the number of fish you are allowed to catch and keep in one day. The **possession limit** is the number you are allowed to have in your possession on hand, in cold storage, in transit, etc. Possession limits are the same as one day's catch limit except where otherwise specified.

**Shore Meals** - Fish caught that day and eaten are counted as part of your daily catch limit.

## † Catch and Possession Limits for Salmon and Trout COMBINED

(Not exceeding individual species limits where otherwise stated)

- S • Lake Huron (south of the north end of the Bruce Peninsula), and Georgian Bay (excluding Big Sound) (Divs. 2 and 16): five (5) salmon and trout, but not more than three (3) may be lake trout, splake and brook trout combined, and not more than two (2) may be rainbow trout.
- S • See the "Exceptions to the General Regulations" on p. 45 for regulations affecting rainbow trout, lake trout, splake and brook trout hybrid in the waters of Big Sound.
- Lake Huron (north of the north end of the Bruce Peninsula) and the North Channel (Divs. 2 and 17): five (5) salmon and trout, but not more than three (3) may be lake trout, splake and brook trout combined.
- Divs. 12, 13, 15, 27 & 28: five (5) salmon and trout combined, in one day.
- Two (2) in one day with not more than one (1) lake trout.
- In Lake Huron, south of the north end of the Bruce Peninsula only one (1) rainbow trout in one day.

Yuil Lake - Wicklow Twp.	15	Live fish may not be used as bait or possessed for use as bait.

# Terrific new angling opportunities are now available in Northeastern Ontario

This year, many more lakes are open to year-round angling in response to a recommendation of the Ontario Living Legacy. Included are more than 145 put-grow-take brook trout lakes (see Additional Fishing Opportunities, page 58). In addition, a large number of stocked splake lakes in Divisions 18 and 19 have been opened to all year fishing. For further information contact any MNR office in Division 18 or Division 19.

These expanded fishing opportunities rely entirely on stocking, because brook trout and splake are not naturally reproducing in these lakes. Catch and possession limits still apply however, as the number of fish which can be stocked depends on the availability of suitable habitat.

## Northeastern Ontario: Home of the Beautiful Aurora Trout

One of the rarest fish in the world lives in Ontario.

Never widespread in its distribution, the aurora trout almost disappeared due to habitat changes resulting from acid rain. Aurora trout were saved from extinction by a captive breeding program developed by the MNR's Hill's Lake Hatchery, located near Englehart. The hatchery program has been so successful that auroras are now stocked in nine northern Ontario lakes, and angling opportunities are provided in several of these lakes each year, on a rotational basis.

In 2000, you're invited to fish for this beautiful color variant of brook trout in these Division 19 lakes:

- Big Club Lake (Bond and Macklem Townships)
- Nayowin Lake (Burrows Township)
- Pallet Lake (Nordica Township)

The open season is August 1 to October 15. Live fish may not be used as bait or possessed for use as bait. The catch and possession limit is one fish, if you are fishing with a Sport Fishing licence. If you hold a Conservation Fishing Licence, you must quickly and carefully release any auroras you catch.

# Northeastern Ontario - Map D

Includes Divisions 14, 18, 19, 25, and 26

For map specific regulations check the Division/Species Table and Exceptions to the General Regulations for this map area on the following pages.

*Note: Species NOT listed above have a year round open season and no catch and possession limits unless specified in the Exceptions to the General Regulations.* \*except Dec. 24

## Catch and Possession Limits for Salmon and Trout COMBINED

[Not exceeding individual species limits where otherwise stated]

- S • Five (5) salmon and trout combined in one day.
- C • Two (2) in one day with not more than one (1) lake trout.

## Size Limits:

Unless otherwise stated, the length referred to is total length. (See page 5)  
Size restrictions listed above apply to both Sport Fishing and Conservation licences.

## Daily Catch and Possession Limits:

Daily catch and possession limits will depend on the type of fishing licence you hold, the species and where they are caught and in some cases the size of the fish.

The catch limit is the number of fish you are allowed to catch and keep in one day. The possession limit is the number you are allowed to have in your possession on hand, in cold storage, in transit, etc. Possession limits are the same as one day's catch limit except where otherwise specified.

**Shore Meals** - Fish caught that day and eaten are counted as part of your daily catch limit.

*Note: Species NOT listed above have a year round open season and no catch and possession limits unless specified in the Exception to the General Regulations.*

\*except Dec. 24

## Size Limits:

Unless otherwise stated, the length referred to is total length. (See page 5).  
Size restrictions listed above apply to both Sport Fishing and Conservation licences.  
Sturgeon are measured differently from other fish (see page 93).

## Daily Catch and Possession Limits:

Daily catch and possession limits will depend on the type of fishing licence you hold, the species and where they are caught and in some cases the size of fish.

The catch limit is the number of fish you are allowed to catch and keep in one day. The possession limit is the number you are allowed to have in your possession on hand, in cold storage, in transit, etc. Possession limits are the same as one day's catch limit except where otherwise specified.  
Shore Meals - Fish caught that day and eaten are counted as part of your daily catch limit.

## \*Catch and Possession Limits for Salmon and Trout COMBINED (Not exceeding individual species limits where otherwise stated)

- S - Lake Superior (Div. 23) - five (5) salmon and trout combined but not more than three (3) may be lake trout, splake and brook trout combined.
- All other Map E Divisions (20-22, 22A, 24 and 30-34) - five (5) salmon and trout combined.
- C - Two (2) in one day with not more than one (1) lake trout.

**Non-Residents of Canada require an Ontario Non-resident Fishing Licence (see page 4) to fish on the Ontario side of the International Border.**

## Regulations for Border Waters

### Licences for Provincial Border Waters

Ontario-Manitoba Border: You may fish in the following lakes with either an Ontario or a Manitoba fishing licence: Div. 22 - Davidson, High, Mantario, and Ryerson Lakes; Div. 24 - Moor Lake; Div. 31 - Frances and Garner Lakes.

### International Border Waters

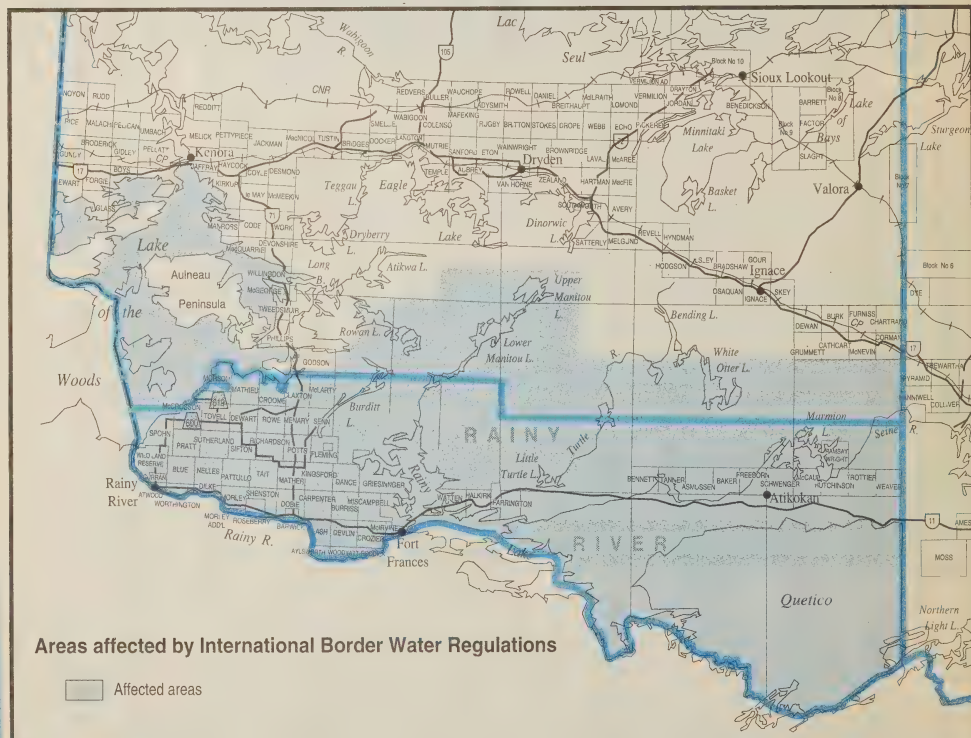

New fishing regulations affecting non-residents of Canada came into effect in November of 1999 for the international border waters area in northwestern Ontario. The international border waters includes Lake of the Woods, Obabikou and Cul de Sac Lakes, Rainy River, Rainy Lake, and all other waters included in the blue shaded area on the map below.

The changes affect the number of walleye, sauger and lake trout that non-residents can catch and retain in one day and the total number that can be possessed at any time. For all other species, non-residents should refer to the catch and possession limits shown on the Division/Species Tables and the Exceptions to the General Regulations.

All non-residents of Canada need to be aware of the following:

- the changes affect all non-residents of Canada regardless of whether you are staying overnight in Canada or not;
- non-residents of Canada are no longer required to have proof of accommodation or a Border Water Conservation Tag to remain fish;
- non-residents of Canada require an Ontario Non-Resident Sport Fishing Licence or an Ontario Non-Resident Conservation Fishing Licence to fish on the Ontario side of the International Border;
- catch and possession limits for walleye, sauger, and lake trout are affected by the new regulations (see details in the table).

**NOTE:** Always check the Exceptions to the General Regulations on pages 84 to 93 for additional regulations specific to the water body you are fishing on.

# Open Season and **New Limits** for Border Waters Area

## BORDER WATERS AREA

### Walleye and Sauger (or any combination)

### Lake Trout

#### Non-Resident Sport Fishing Licence

#### Non-Resident Conservation Fishing Licence

#### Non-Resident Sport Fishing Licence

#### Non-Resident Conservation Fishing Licence

### LAKE OF THE WOODS

(includes Cul de Sac and Obabikou Lakes)

**Jan. 1 - Apr. 14 & May 20  
(3rd Sat.) - Dec. 31**

**catch & retain in one day**

- two (2) only one (1) greater than 46 cm (18.1 in)

**possession limit**

- four (4) only one (1) greater than 46 cm (18.1 in)

**Jan. 1 - Apr. 14 & May 20  
(3rd Sat.) - Dec. 31**

- no changes to limit

- catch and possession limit of two (2) only one greater than 46 cm (18.1 in)

No Change

See Exceptions to the General Regulations

No Change

See Exceptions to the General Regulations

### RAINY LAKE

(including the portion of the Seine River system upstream to the Crilly dam AND the Rainy River from Rainy Lake to the Fort Frances dam)

**Jan. 1 - Apr. 14 & May 20  
(3rd Sat.) - Dec. 31**

**catch & retain in one day**

- one (1) which must be greater than 35 cm (13.8 in) and less than 45 cm (17.7 in) OR greater than 70 cm (27.5 in)

**possession limit**

- four (4) which must be greater than 35 cm (13.8 in) and less than 45 cm (17.7 in) OR greater than 70 cm (27.5 in)

- only one (1) greater than 70 cm (27.5 in)

**Jan. 1 - Apr. 14 & May 20  
(3rd Sat.) - Dec. 31**

**catch & retain in one day**

- one (1) which must be greater than 35 cm (13.8 in) and less than 45 cm (17.7 in) OR greater than 70 cm (27.5 in)

**possession limit**

- two (2) which must be greater than 35 cm (13.8 in) and less than 45 cm (17.7 in) OR greater than 70 cm (27.5 in)

- only one (1) greater than 70 cm (27.5 in)

No Change

See Division/Species Table and Exceptions to the General Regulations

No Change

See Division/Species Table and Exceptions to the General Regulations

### RAINY RIVER

(from Wheelers Point upstream to the Fort Frances Dam)

**Jan. 1 - Feb. 29 (last day in Feb.) & May 20 (3rd Sat.) - Dec. 31**

**catch & retain in one day**

- two (2) only one (1) greater than 46 cm (18.1 in)

**possession limit**

- four (4) only one (1) greater than 46 cm (18.1 in)

**Mar. 1 to April 14**

**catch & possession limit**

- two (2) in one day
- zero (0) greater than 46 cm (18.1 in)

**Jan. 1 - Feb. 29 (last day in Feb.) & May 20 (3rd Sat.) - Dec. 31**

- catch and possession limit of two (2) only one (1) greater than 46 cm (18.1 in)

**Mar. 1 to April 14**

- catch and possession limit of two (2) in one day
- zero (0) greater than 46 cm (18.1 in)

No Change

See Division/Species Table and Exceptions to the General Regulations

No Change

See Division/Species Table and Exceptions to the General Regulations

### REMAINING LAKES - FORT FRANCES DISTRICT

(shaded area on map)

**Jan. 1 - Apr. 14 & May 20  
(3rd Sat.) - Dec. 31**

**catch & retain in one day**

- two (2) only one (1) greater than 46 cm (18.1 in)

**possession limit**

- four (4) only one (1) greater than 46 cm (18.1 in)

**Jan. 1 - Apr. 14 & May 20  
(3rd Sat.) - Dec. 31**

- no changes to limit

- catch and possession limit of two (2)

- only one greater than 46 cm (18.1 in)

**Jan. 1 - Sept. 30**

**catch & retain in one day**

- one (1)

**possession limit**

- two (2), only one (1) greater than 56 cm (22 in) from Sept. 1 - Sept. 30

# NORTHWESTERN ONTARIO

## General Notes

- Non-residents camping on Crown land in Northwestern Ontario, except for the border waters areas, must observe Conservation Licence limits.
- St. Marys River, all waters west or up river from the compensation works at the head of the St. Marys River rapids in Sault Ste. Marie, including Lake Superior are within Div. 23.
- Div. 34 - you may not possess live lake trout or brook trout.
- A CITES permit is required to export Sturgeon from Canada, see page 5.
- The eastern part of Div. 33 is bordered by Hwy. 11 to the south and the old (abandoned) rail line to the north.

## Bait and Gear Restrictions

- You may not use or possess live fish for bait in:
  - Div. 24;
  - Certain waters of the territorial districts of Kenora and Thunder Bay.
 Check with the local MNR office for specific details.
- Quetico Provincial Park.
- Div. 34:
  - when angling through the ice, artificial lures must be used.
  - barbless hooks must be used all year, on all gear.
  - no person shall possess or use strings or live holding pens.
- It is illegal to possess live or dead smelt while recreational fishing in Divs. 22, 22A, 24, 30, 31 and 32.

Lung Lake, including the Pasemino River upstream to 300 m (984 ft.) above the Musselwhite Mine Road.	24	Fish sanctuary - closed all year.

## MEASURING STURGEON LENGTH

**Please note: sturgeon are measured differently from other species of fish.**

With respect to Sturgeon, length refers to the distance measured from the most posterior limit of the gill opening to the point where the posterior edge of the dorsal fin joins the flesh of the body.

If the head has been removed, the measurement is taken from the cut edge mid-way between the back and the belly of the fish to the point where the posterior edge of the dorsal fin joins the flesh of the body.

## Economic Benefits Provided by Visiting Anglers

Visitors to Ontario contribute substantially to the economic benefits Ontario enjoys from its recreational fishery. For example, in 1995:

- **more than 500,000** non-resident, non-Canadian anglers fished in Ontario.
- **\$429 million** was spent by this group in expenditures directly related to fishing (food, camping, accommodation, transportation, fishing services, fishing supplies etc.) while in Ontario.

Overall, Ontario accounted for:

- 75% of all fishing trips to Canada by non-resident, non-Canadian anglers

Source: 1995 Survey of Recreational Fishing in Canada, prepared by Fisheries and Oceans Canada [Economics and Commercial Analysis Report No. 154]

# RECREATIONAL FISHING IN ONTARIO: DOING THE MATH

More than 155 species of fish live in Ontario's 250,000 lakes and thousands of kilometres of streams and rivers.

Ontario has the largest freshwater fishery in Canada and one of the largest freshwater fisheries in the world.

## Participation by Ontarians in Recreational Fishing

In 1996, of the estimated **4.2 million Canadians** who fished for recreation in Canada, **1.5 million** (36%) were residents of Ontario.

This represents a participation rate in recreational fishing of **17.2%** of the Ontario population.

Ontario residents spent **27.4 million days** fishing for recreation in 1996 (an average of 17.9 days per participant).

Source: *The Importance of Nature to Canadians: 1996 Survey Highlights* (prepared by Environment Canada)

## What Was Caught?

In 1995, Ontario resident anglers caught more than **74 million fish** and released almost two-thirds of them.

- The most frequently caught species were yellow perch, walleye, and bass (smallmouth and largemouth)

In 1995, non-resident, non-Canadian anglers caught **43.7 million fish** in Ontario and released more than 70% of them.

- The most frequently caught species were walleye, northern pike and panfish.

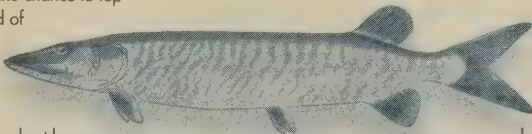

Source: *1995 Survey of Recreational Fishing in Canada*, prepared by Fisheries and Oceans Canada (Economics and Commercial Analysis Report No. 154).

Ontario is home to some of the most exceptional muskellunge fisheries in the world. With more than 300 lakes and rivers supporting muskellunge populations, Ontario offers an incredible diversity of opportunities and experiences, including the chance to top Ontario's current record of 29.5 kg (65 pounds)!

While less than 10 per cent of the muskies caught in the province are kept by anglers each year, we need to know more about these fish in order to keep their populations productive and sustainable. In partnership with the Royal Ontario Museum, Muskies Canada, and the Ontario Federation of Anglers and Hunters, the Ministry of Natural Resources is collecting information from fish that are kept by anglers.

IF YOU PLAN TO FISH FOR MUSKIE, CALL YOUR LOCAL MNR OFFICE FOR AN INFORMATION PACKAGE ON HOW YOU CAN HELP.

The package explains how age, growth and other important biological information can be obtained from a single

bone located near the gill cover, called the "cleithrum". Proper procedure for removing the bone and submitting it for evaluation is also included. By submitting a cleithrum, you will be helping to ensure the sound management of this unique species. This information will be considered in future provincial reviews of muskellunge regulations.

## FOREST FIRES

To report a forest fire in Ontario, you may call toll free and your call will be directed to the Ministry of Natural Resources Regional Fire Response Centre, within the area code you are calling from.

In the 705 telephone area code (north of the French/Mattawa River System) call:  
**1-888-863-FIRE (3473).**

In the 807 telephone area code (northwestern Ontario) call:  
**1-888-284-FIRE (3473).**

## CROWN LAND AND CAMPING

In Ontario, travel for recreational purposes on Crown lands and waters is generally free and unrestricted. Generally, camping is allowed free on Crown lands for up to 21 days per year except where posted as no camping. Some Crown lands, however, have restricted travel zones for forest fire prevention, officially closed forest access roads and areas posted with signs to prohibit all or certain kinds of travel. **Non-residents**, except those using the services of a commercial outfitter, require a permit to camp on Crown lands north of the French and Mattawa Rivers. Contact your local MNR office or licence issuer for permits.

## Ministry of Natural Resources Offices

If you are not sure whether you can fish at a certain time and place, or if you have any questions about the regulations, contact:

- the MNR office nearest to where you plan to fish,
- the Natural Resources Information Centre  
General Inquiry 1-800-667-1940  
French Inquiry 1-800-667-1840

OR

- MNR by E-mail at: [mnr.nric@mnr.gov.on.ca](mailto:mnr.nric@mnr.gov.on.ca)

The following list of MNR offices includes the fisheries divisions for which each office is responsible.

**NOTE:** more than one MNR office may share responsibility for a division.

## Do you feel the lure of a reel adventure?

Whether you tell tales of the one that got away or just want to introduce your children to the thrill of landing a big one, there's an Ontario provincial park waiting to hook you.

More than 270 provincial parks offer sparkling rivers and lakes in which to cast your line and match wits with a walleye, pike, bass or perch. Outfit yourself for the experience with a fully-rigged rod and reel borrowed through the Ontario Federation of Anglers and Hunters Tackle Share® program offered at many of our parks.

For more details visit our website [www.OntarioParks.com](http://www.OntarioParks.com) or call 1-800-ONTARIO for your copy of the Ontario Parks Guide. Find the O.F.A.H. Tackle Share® program nearest you by visiting [www.ofah.org](http://www.ofah.org) or by calling (705) 748-6324.

Call 1 888 ONT-PARK for camping reservations.

**Immerse yourself in the reel adventure awaiting you in Ontario's provincial parks.**

# Advances in Fisheries Research

MNR scientists conduct research to address current and future fisheries management needs and ensure the conservation and sustainable use of fisheries resources.

## Genetics – The Basis of Ontario's Natural Diversity

The MNR Fish Genetics Unit provides genetic information on a wide range of Ontario fish species. Genetic variation in hatchery broodstocks is monitored to maintain healthy and diverse fish populations in stocked waters. Forensic identification of fish provides our Conservation Officers with their newest enforcement tool.

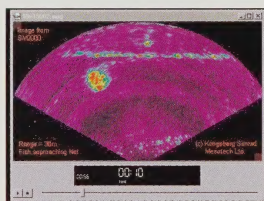

Researchers are examining genetic variation in lake trout and walleye across Ontario. Genetic comparisons of stocked and native populations assist in measuring the long-term effects of fish stocking.

## Hydroacoustics – A Window Into the World of Freshwater Fish

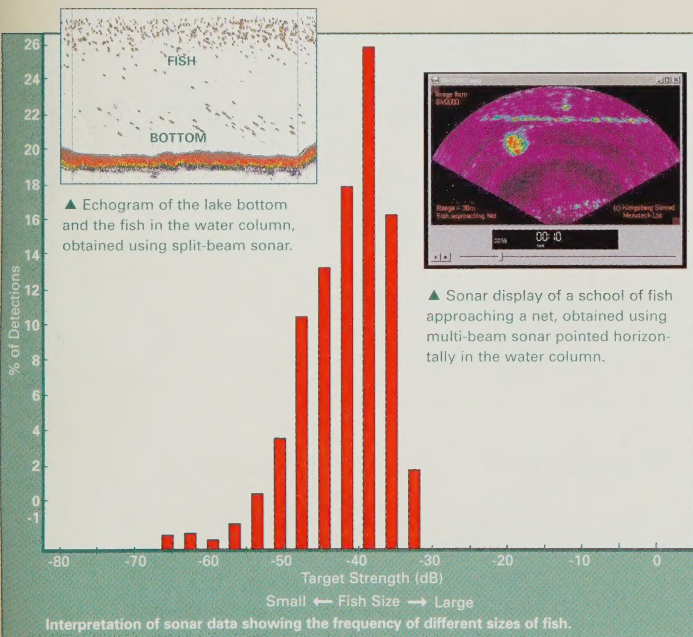

▲ Echogram of the lake bottom and the fish in the water column, obtained using split-beam sonar.

▲ Sonar display of a school of fish approaching a net, obtained using multi-beam sonar pointed horizontally in the water column.

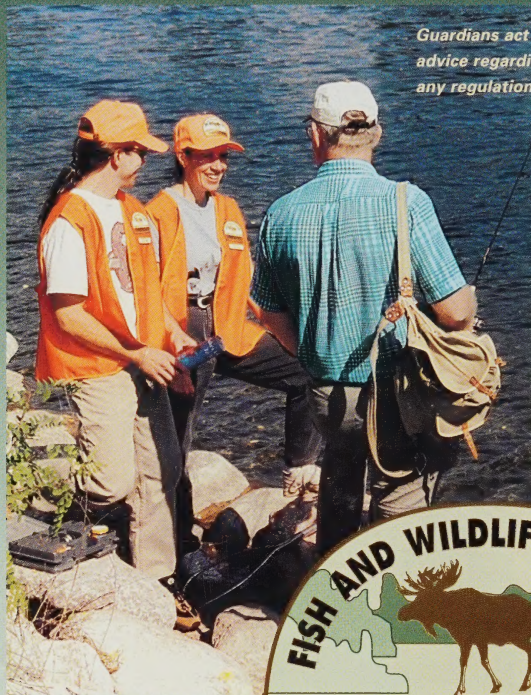

Hydroacoustic technology offers an efficient means of sampling the vast number of lakes in Ontario. This technology has been widely used in marine environments. MNR research is developing ways of applying the technology in freshwater.

Like an angler's fish finder, sonar equipment used in research emits pulses and analyzes echoes to determine bottom depth and the location and size of fish. Research equipment employs more sensitive sonar technology and includes a computer that stores the data and performs complex analyses. Researchers can then map lake depth, describe the spatial distribution of organisms, and estimate the abundance of fish and plankton.

# Fish and Wildlife Guardians "Partners in Compliance"

Anglers can expect to see Guardians for the first time this year while out enjoying fishing opportunities across Ontario.

*Guardians act as local information sources, providing advice regarding legislation, local "hot spots," as well as any regulations specific to your location.*

*Guardians are trained observers who share a concern for the future of our fishing resources.*

After 16 hours of training, guardians are issued an individually numbered vest and hat bearing this crest.

## Want to know more...

...about the Fish and Wildlife Guardian program, or become involved yourself?

Contact your local MNR office to obtain a brochure, receive a Guardian Program Application, or to find out the name of your local Guardian trainers.
